SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements contained in this Annual Report on Form 10-K may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities and Exchange Act of 1934 and as such may involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements, which are based on certain assumptions and describe our future plans, strategies and expectations are generally identifiable by use of the words “may,” “will,” “should,” “expect,” “anticipate,” “estimate,” “believe,” “intend” or “project” or the negative thereof or other variations thereon or comparable terminology. Factors which could have a material adverse effect on our operations and future prospects include, but are not limited to those set forth under the headings “Item 1A. Risk Factors” and “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operation” in this Form 10-K. These risks and uncertainties should be considered in evaluating any forward-looking statements contained or incorporated by reference herein.

PART I

ITEM 1. BUSINESS.

GENERAL

Acadia Realty Trust (the "Trust") was formed on March 4, 1993 as a Maryland real estate investment trust ("REIT"). All references to "Acadia," "we," "us," "our," and "Company" refer to the Trust and its consolidated subsidiaries. We are a fully integrated, self-managed and self-administered equity REIT focused primarily on the ownership, acquisition, redevelopment and management of retail properties, including neighborhood and community shopping centers and mixed-use properties with retail components. We currently operate 82 properties, which we own or have an ownership interest in. These assets are located primarily in high-barrier-to-entry, densely-populated metropolitan areas in the United States along the East Coast and in Chicago and, in total, comprise approximately eight million square feet. We also have private equity investments in other retail real estate related opportunities in which we have a minority equity interest.

All of our investments are held by, and all of our operations are conducted through, Acadia Realty Limited Partnership (the "Operating Partnership") and entities in which the Operating Partnership owns a controlling interest. As of December 31, 2011, the Trust controlled 99% of the Operating Partnership as the sole general partner. As the general partner, the Trust is entitled to share, in proportion to its percentage interest, in the cash distributions and profits and losses of the Operating Partnership. The limited partners generally represent entities or individuals which contributed their interests in certain assets or entities to the Operating Partnership in exchange for common or preferred units of limited partnership interest ("Common OP Units" or "Preferred OP Units", respectively, and collectively, "OP Units") and employees who have been awarded restricted Common OP Units ("LTIP Units") as long-term incentive compensation. Limited partners holding Common OP Units are generally entitled to exchange their units on a one-for-one basis for our common shares of beneficial interest ("Common Shares"). This structure is referred to as an umbrella partnership REIT, or "UPREIT".

BUSINESS OBJECTIVES AND STRATEGIES

Our primary business objective is to acquire and manage commercial retail properties that will provide cash for distributions to shareholders while also creating the potential for capital appreciation to enhance investor returns. We focus on the following fundamentals to achieve this objective:

- Own and operate a Core Portfolio (as defined in Item 2. of this Form 10-K) of high-quality retail properties located primarily in high-barrier-to-entry, densely-populated metropolitan areas and create value through accretive redevelopment and re-anchoring activities coupled with the acquisition of high-quality assets that have the long-term potential to outperform the asset class as part of our Core asset recycling and acquisition initiative.
- Generate additional external growth through an opportunistic yet disciplined acquisition program through our Opportunity Funds (as defined in Item 1. of this Form 10-K). We target transactions with high inherent opportunity for the creation of additional value through:
 - value-add investments in high-quality urban and/or street retail properties with re-tenanting or repositioning opportunities,
 - opportunistic acquisitions of well-located real-estate anchored by distressed retailers or by motivated sellers and
 - opportunistic purchases of debt which may include restructuring.

These may also include joint ventures with private equity investors for the purpose of making investments in operating retailers with significant embedded value in their real estate assets.

- Maintain a strong and flexible balance sheet through conservative financial practices while ensuring access to sufficient capital to fund future growth.

Investment Strategy — External Growth through Core Asset Recycling/Acquisition initiative and Opportunity Fund Platform

The requirements that acquisitions be accretive on a long-term basis based on our cost of capital, as well as increase the overall

Core Portfolio quality and value, are key strategic considerations to our Core Portfolio asset recycling/acquisition program. As such, we constantly evaluate the blended cost of equity and debt and adjust the amount of acquisition activity to align the level of investment activity with capital flows. Given the growing importance of technology and e-commerce, many of our retail tenants are appropriately focused on multi-channel sales and how to best utilize e-commerce initiatives to drive sales at their stores. In light of these initiatives, we have found retailers are becoming more selective as to the location, size and format of their next-generation stores and are focused on dense, high-traffic retail corridors, where they can utilize smaller and more productive formats closer to their shopping population. Accordingly, our focus for Core Portfolio acquisitions is on those properties which we believe will not only remain relevant to our tenants, but become even more so in the future. In connection with our Core Portfolio acquisition activity, we may also engage in discussions with public and private entities regarding business combinations.

In addition to our Core Portfolio investments in real estate assets, we have also capitalized on our expertise in the acquisition, redevelopment, leasing and management of retail real estate by establishing discretionary opportunity funds in which we earn, in addition to a pro-rata return based on our equity interest, a carried interest ("Promote") and fees and priority distributions for our services. To date, we have launched three opportunity funds ("Opportunity Funds"), Acadia Strategic Opportunity Fund, LP ("Fund I"), Acadia Strategic Opportunity Fund II, LLC ("Fund II") and Acadia Strategic Opportunity Fund III, LLC ("Fund III"). Due to the level of our control, we consolidate these Opportunity Funds for financial reporting purposes.

Fund I

During September of 2001, we and four of our institutional shareholders formed Fund I, and during August of 2004 formed a limited liability company, Acadia Mervyn Investors I, LLC ("Mervyns I"), in which the investors, including the Operating Partnership, committed a total of \$90.0 million for the purpose of acquiring real estate assets. The Operating Partnership is the general partner or managing member with a 22.2% interest. In addition to a pro-rata return on its invested equity, the Operating Partnership is entitled to a Promote based upon certain investment return thresholds. Cash flow was distributed pro-rata to the investors (including the Operating Partnership) until they earned a 9% cumulative return ("Preferred Return") and the return of all of their capital contributions.

Fund I investors have received a return of all of their capital invested in Fund I and Mervyns I and their Preferred Return. Accordingly, all cash flow is now distributed 20% to the Operating Partnership as a Promote and 80% to the partners (including the Operating Partnership). The Operating Partnership also earns fees and/or priority distributions for asset management services equal to 1.5% of the allocated invested equity, as well as for property management, leasing, legal and construction services. All such fees and priority distributions are eliminated in consolidation and reflected as a reduction in the noncontrolling interest share in income from Opportunity Funds in the Consolidated Financial Statements beginning on page F-1 of this Form 10-K.

We are currently in the latter stages of our multi-year process of monetizing Fund I as discussed further in "—ASSET SALES AND CAPITAL/ASSET RECYCLING" below in this Item 1. As of December 31, 2011, there were four assets comprising approximately 0.1 million square feet remaining in Fund I in which the Operating Partnership's interest in cash flow and income is 37.8% as a result of the Promote.

Fund II

Following our success with Fund I, during June of 2004 we formed a second, larger Opportunity Fund, Fund II, and during August of 2004, formed Acadia Mervyn Investors II, LLC ("Mervyns II"), with the investors from Fund I as well as two additional institutional investors, whereby the investors, including the Operating Partnership, committed capital totaling \$300.0 million. The Operating Partnership is the managing member with a 20% interest in Fund II and Mervyns II and can invest the committed equity on a discretionary basis within the parameters defined in the Fund II and Mervyns II operating agreements. The terms and structure of Fund II and Mervyns II are substantially the same as Fund I and Mervyns I with the exception that the Preferred Return is 8%. As of December 31, 2011, \$282.2 million of Fund II's and Mervyns II's capital was invested and the balance of \$17.8 million is expected to be utilized to complete development activities for existing Fund II investments.

Given the market conditions for commercial real estate at the time Fund II was formed, we channeled our acquisition efforts through Fund II in two opportunistic strategies – the New York Urban/Infill Redevelopment Initiative and the Retailer Controlled Property Venture, which are more fully described below.

New York Urban/Infill Redevelopment Initiative

During September of 2004, through Fund II, we launched our New York Urban/Infill Redevelopment Initiative. In addition to retailer multi-channeling initiatives as discussed above, we also believe that retailers continue to recognize that many of the nation's urban markets are under-served from a retail standpoint, and we have capitalized on this situation by investing in redevelopment projects in dense urban areas where retail tenant demand has effectively surpassed the supply of available sites. During 2004, Fund II, together with an unaffiliated partner, formed Acadia Urban Development LLC ("Acadia Urban Development") for the purpose of acquiring, constructing, developing, owning, operating, leasing and managing certain retail or mixed-use real estate properties

in the New York City metropolitan area. The unaffiliated partner agreed to invest 10% of required capital up to a maximum of \$2.2 million and Fund II, the managing member, agreed to invest the balance to acquire assets in which Acadia Urban Development agreed to invest. See Item 7. of this Form 10-K for further information on the Acadia Urban Development joint venture as detailed in “Liquidity and Capital Resources – New York Urban/Infill Redevelopment Initiative.” Through December 31, 2011, eight of Fund II's nine projects are owned through Acadia Urban Development, as discussed further in “—PROPERTY ACQUISITIONS— New York Urban/Infill Redevelopment Initiative” below in this Item 1.

Retailer Controlled Property Venture (the “RCP Venture”)

During 2004, through Funds I and II or affiliates thereof, we entered into an association, known as the RCP Venture, with Klaff Realty, L.P. (“Klaff”) and Lubert-Adler Management, Inc. (“Lubert-Adler”) for the purpose of making investments in surplus or underutilized properties owned by retailers. The RCP Venture is neither a single entity nor a specific investment. Any member of this association has the option of participating, or not, in any individual investment and each individual investment has been made on a stand-alone basis through a separate limited liability company. These investments have been made through different investment vehicles with different affiliated and unaffiliated investors and different economics to us. The initial size of the RCP Venture was expected to be approximately \$300.0 million in equity, of which our share would be \$60.0 million. Based on the investment opportunities, the size of the RCP Venture could be and was expanded. Mervyns I and II and Fund II have invested a total of \$62.2 million in the RCP Venture to date on a non-recourse basis. Investments under the RCP Venture are structured as separate joint ventures as there may be other investors participating in certain investments in addition to Klaff, Lubert-Adler and us. While we are not required to invest any additional capital into any of these investments, should additional capital be required and we elect not to contribute our share, our proportionate share in the investment would be reduced. Cash flow from any RCP Venture investment is distributed to the participants until they have received a 10% cumulative return on and a full return of all capital contributions. Thereafter, remaining cash flow is distributed 20% to Klaff (“Klaff’s Promote”) and 80% to the partners (including Klaff). As the participants have received a return of all of their capital invested and their unpaid cumulative return, all cash flow is now distributed 20% to Klaff as Klaff’s Promote and then 80% to the partners. The Operating Partnership may also earn market-rate fees for property management, leasing and construction services on behalf of the RCP Venture. While we are primarily a passive partner in the investments made through the RCP Venture, historically we have provided our services in reviewing potential acquisitions and operating and redevelopment assistance in areas where we have both a presence and expertise. We continue to seek to invest opportunistically with the RCP Venture primarily in any of the following four ways:

- Invest in operating retailers to control their real estate through private equity joint ventures
- Work with financially healthy retailers to create value from their surplus real estate
- Acquire properties, designation rights or other control of real estate or leases associated with retailers in bankruptcy
- Complete sale-leasebacks with retailers in need of capital

Our RCP Venture investments are further discussed in “—PROPERTY ACQUISITIONS – RCP Venture” below in this Item 1.

Fund III

Fund III was formed during 2007 with fourteen institutional investors, including a majority of the investors from Funds I and II, whereby the investors, including the Operating Partnership, committed capital totaling \$502.5 million. The Operating Partnership’s share of the committed capital is \$100.0 million and it is the sole managing member with a 19.9% interest in Fund III and can invest the committed equity on a discretionary basis within the parameters defined in the Fund III operating agreement. The terms and structure of Fund III are substantially the same as Fund I and Fund II with the exception that the Preferred Return is 6%. As of December 31, 2011, \$226.8 million of Fund III’s capital was invested. To date, Fund III has invested in 21 projects as discussed further in “—PROPERTY ACQUISITIONS” below in this Item 1.

Through Fund III, our acquisition efforts are focused on the investment themes as discussed above in "BUSINESS OBJECTIVES AND STRATEGIES" in this Item 1.

In connection with the focus on urban locations, Fund III has invested in a portfolio of 11 self-storage facilities located in and around the New York City metropolitan area.

Capital Strategy — Balance Sheet Focus and Access to Capital

Our primary capital objective is to maintain a strong and flexible balance sheet through conservative financial practices, including a moderate use of leverage, while ensuring access to sufficient capital to fund future growth. We intend to continue financing acquisitions and property redevelopment with sources of capital determined by management to be the most appropriate based on, among other factors, availability in the current capital markets, pricing and other commercial and financial terms. The sources of

capital may include the issuance of public equity, unsecured debt, mortgage and construction loans, and other capital alternatives including the issuance of OP Units. We manage our interest rate risk primarily through the use of fixed rate debt and, where we use variable rate debt, we use certain derivative instruments, including London Interbank Offered Rate (“LIBOR”) swap agreements and interest rate caps as discussed further in Item 7A. of this Form 10-K.

During January 2012, we established an at-the-market (“ATM”) equity program with an aggregate offering of up to \$75.0 million in Common Shares. We intend to use the future net proceeds of this offering for general corporate purposes, which may include, among other things, repayment of our debt, future acquisitions, directly in the Core Portfolio and through our Opportunity Funds, and redevelopments of and capital improvements to our properties.

During November 2011, we issued 2.25 million Common Shares, which generated net proceeds of approximately \$45.0 million. The proceeds were primarily used for general corporate purposes, which included (i) the repurchase of \$24.0 million of our convertible notes (“Convertible Notes”) payable as discussed further in Note 9 to our Consolidated Financial Statements, which begin on page F-1 of this Form 10-K, (ii) additional property acquisitions and investments, including the funding of our capital commitments to our Opportunity Funds and (iii) redevelopment and re-tenanting activities within our Core Portfolio.

During April 2009, we issued 5.75 million Common Shares and generated net proceeds of approximately \$65.0 million. The proceeds were primarily used to purchase a portion of our outstanding Convertible Notes payable as discussed below and pay down existing lines of credit.

Operating Strategy — Experienced Management Team with Proven Track Record

Our senior management team has decades of experience in the real estate industry. We believe our management team has demonstrated the ability to create value through anchor recycling, property redevelopment and strategic non-core dispositions. We have capitalized on our expertise in the acquisition, redevelopment, leasing and management of retail real estate by establishing joint ventures, such as the Opportunity Funds, in which we earn, in addition to a return on our equity interest, Promotes, fees and priority distributions. In connection with these joint ventures we have launched several successful acquisition platforms including our New York Urban/Infill Redevelopment Initiative and RCP Venture.

Operating functions such as leasing, property management, construction, finance and legal (collectively, the “Operating Departments”) are generally provided by our personnel, providing for fully integrated property management and development. By incorporating the Operating Departments in the acquisition process, acquisitions are appropriately priced giving effect to each asset’s specific risks and returns. Also, because of the Operating Departments involvement with, and corresponding understanding of, the acquisition process, transition time is minimized and management can immediately execute on its strategic plan for each asset.

We typically hold our Core Portfolio properties for long-term investment. As such, we continuously review the existing portfolio and implement programs to renovate and modernize targeted centers to enhance the property’s market position. This in turn strengthens the competitive position of the leasing program to attract and retain quality tenants, increasing cash flow and consequently property value. We also periodically identify certain properties for disposition and redeploy the capital to existing centers or acquisitions with greater potential for capital appreciation. Our Core Portfolio consists primarily of urban/street retail properties and neighborhood and community shopping centers located in high barrier-to-entry supply constrained markets. The neighborhood and community shopping centers owned in both our Core Portfolio and through our Opportunity Funds are principally anchored by supermarkets and necessity-based retailers. We believe these attributes enable our properties to better withstand the current post recessionary period.

During 2011 and 2009 we sold two non-core properties and redeployed capital in part to fund Core Portfolio acquisitions as further discussed in “—PROPERTY ACQUISITIONS” and “ASSET SALES AND CAPITAL/ASSET RECYCLING” below in this Item 1.

PROPERTY ACQUISITIONS

Core Portfolio

See Item 2. PROPERTIES for the definition of our Core Portfolio.

During 2011, we continued to execute on our strategy of owning a superior Core Portfolio by acquiring, through our Operating Partnership, high-quality, urban and street retail assets with the following acquisitions:

- During September 2011, acquired a 50% equity interest in an entity which owns a six property portfolio (the “Georgetown Portfolio”) located in Washington, D.C. for a purchase price of \$13.4 million, which included the assumption of 50% of in-place debt of \$9.2 million, inclusive of our existing mezzanine loan to the entity.
- During August 2011, acquired a six property portfolio located in Chicago, Illinois for \$18.0 million and a newly constructed 13,000 square foot property located in the Bronx, New York for \$9.1 million.
- During June 2011, acquired a 6,000 square foot single-tenant retail condominium located in New York, New York for \$4.8 million.
- During May 2011, acquired a 44,000 square foot retail property located in Chicago, Illinois, for \$28.4 million.

In addition, as of December 31, 2011 we have 16 properties under contract for an aggregate purchase price of \$107.3 million. Two of these transactions, with purchase prices totaling \$22.7 million, were completed subsequent to December 31, 2011. The closings of the transactions still under contract, which are anticipated to be completed during 2012, are subject to customary closing conditions and in certain instances, lender approval. As such, no assurance can be given that we will successfully complete these transactions.

See Item 2. PROPERTIES for a description of the other properties in our Core Portfolio.

Opportunity Funds

Fund III

Through Fund III, we have also acquired the following properties:

- During December 2011, acquired a 31,500 square foot shopping center located in New Hyde Park, New York for \$11.3 million.
- During December 2011, in joint ventures with unaffiliated partners, acquired a 260,000 square foot shopping center located in Baltimore, Maryland for \$21.6 million and an 18,700 square foot property located at 654 Broadway, New York, New York for \$13.3 million.
- During April 2011, acquired a 105,000 square foot property located in the East Loop section of downtown Chicago, Illinois, for \$31.6 million.
- During February 2011, in a joint venture with an unaffiliated partner, acquired a 64,600 square foot single tenant retail property located in Silver Springs, Maryland, for approximately \$9.8 million.
- During February 2011, in a joint venture with an unaffiliated partner, acquired a three property portfolio (the “Portfolio”) for an aggregate purchase price of \$51.9 million with \$20.6 million of in-place mortgage financing assumed at closing. The Portfolio consists of three street-retail properties, aggregating 61,000 square feet, and is located in South Miami Beach, Florida.
- During December 2010, in a joint venture with an unaffiliated partner, purchased the White City Shopping Center for \$56.0 million. The property is a 255,000 square foot shopping center located in Shrewsbury, Massachusetts.
- During June 2010, in a joint venture with an unaffiliated partner, invested in an entity formed for the purpose of providing management services to owners of self-storage properties, including the 14 locations currently owned through Fund II and Fund III. To date, Fund III has invested \$4.2 million in this entity.
- During January 2009, purchased Cortlandt Towne Center for \$78.0 million. The property is a 641,000 square foot shopping center located in Westchester County, New York.
- During November 2007, acquired a property at 125 Main Street, Westport, Connecticut for approximately \$17.0 million. Redevelopment of the property was completed in 2011 at a cost of approximately \$8.5 million. The property is 89% leased and anchored by Gap Inc.
- During November 2007, acquired a property in Sheepshead Bay, Brooklyn for approximately \$20.0 million. The property is currently in the design stage.

Self-Storage Portfolio

During February 2008, Fund III, in conjunction with Storage Post, acquired a portfolio of eleven self-storage properties from Storage Post's existing institutional investors for approximately \$174.0 million. In addition, we, through Fund II, developed three self-storage properties. The fourteen self-storage property portfolio, located throughout New York and New Jersey, totals approximately 1,124,000 net rentable square feet, and is operating at various stages of stabilization. As of December 31, 2011, overall occupancy for this portfolio was 87.0% compared with 76.5% at December 31, 2010.

Fund II New York Urban/Infill Redevelopment Initiative

As of December 31, 2011, Fund II had nine New York Urban/Infill Redevelopment Initiative projects, eight of which were made through Acadia Urban Development. Construction is substantially complete at seven of the projects, one is under construction and one is in the design phase as follows:

Property	Location	Year acquired	(dollars in millions)		Status	Square feet upon completion

- Notes:**
TBD – To be determined
(1) Acadia Urban Development acquired a ground lease interest at these properties.
(2) Currently operating but re-tenanting activities have commenced.
(3) Fund II owns 100% of this project.
(4) Anticipated additional costs for completed properties represent costs for tenant improvements.

Under Construction

CityPoint — During June of 2007, Acadia Urban Development and an unaffiliated joint venture partner, California Urban Investment Partners, LLC (“CUIP”) purchased the leasehold interests in The Gallery at Fulton Street in downtown Brooklyn for approximately \$115.0 million, with an option to purchase the fee position, which is owned by the City of New York, at a later date. On June 30, 2010, Acadia Urban Development acquired all of CUIP's interest in CityPoint for a total consideration of \$9.2 million and the assumption of CUIP's share of debt of \$19.6 million. Reference is made to Note 2 in our Consolidated Financial Statements, which begin on Page F-1 of this Form 10-K for a further discussion of this transaction. The development will proceed in three phases. Construction has commenced on Phase 1, a five-story retail building of approximately 50,000 square feet. Phase 2 will consist of approximately 625,000 square feet of additional retail. Phase 2 will also contain an affordable and market-rate residential component. Phase 3 is anticipated to be a stand-alone mixed use, but primarily residential building, of approximately 650,000 square feet.

RCP Venture

Mervyns Department Stores

In September 2004, we made our first RCP Venture investment. Through Mervyns I and Mervyns II, we invested in a consortium to acquire Mervyns consisting of 262 stores (“REALCO”) and its retail operation (“OPCO”) from Target Corporation. Our share of this investment was \$23.2 million. Subsequent to the initial acquisition of Mervyns, we made additional investments of \$2.9 million. To date, REALCO has disposed of a significant portion of the portfolio. In addition, during November 2007, we sold our interest in, and as a result, have no further investment in OPCO. Through December 31, 2011, we have received distributions from this investment totaling \$46.0 million.

Through December 31, 2011, we, through Mervyns I and Mervyns II, made additional investments in locations that are separate from these original investments (“Add-On Investments”) in Mervyns totaling \$6.5 million and have received distributions totaling \$3.6 million.

Albertson’s

During June of 2006, the RCP Venture made its second investment as part of an investment consortium, acquiring Albertson’s and Cub Foods, of which our share was \$20.7 million. Through December 31, 2011, we have received distributions from this investment totaling \$81.6 million, including \$4.5 million and \$11.4 million received in 2011 and 2010, respectively.

Through December 31, 2011, we, through Mervyns II, made Add-On Investments in Albertson’s totaling \$2.4 million and received distributions totaling \$1.7 million, including \$0.5 million received in 2011.

Other RCP Investments

Through December 31, 2011, we, through Fund II, made investments of \$1.1 million in Shopko, \$0.7 million in Marsh, and \$2.0 million in Add-On Investments in Marsh. As of December 31, 2011, we have received distributions totaling \$1.7 million from our Shopko investment and \$2.6 million from our Marsh and Marsh Add-On Investments.

During July of 2007, the RCP Venture acquired a portfolio of 87 retail properties from Rex Stores Corporation (“Rex”), in which we invested through Mervyns II. Our share of this investment was \$2.7 million. As of December 31, 2011, we have received distributions from Rex totaling \$0.8 million.

The following table summarizes the RCP Venture investments from inception through December 31, 2011, and the Operating Partnership’s share of this activity:

(dollars in millions)

Investor	Investment	Year acquired	Invested Capital	Distributions	Operating Partnership Share	
					Invested Capital	Distributions
Mervyns I and Mervyns II	Mervyns	2004	\$ 26.1	\$ 46.0	\$ 4.9	\$ 11.3
Mervyns I and Mervyns II	Mervyns Add-On Investments	2005/2008	6.5	3.6	1.1	0.8

Notes Receivable, Preferred Equity and Other Real Estate Related Investments

We also make investments in preferred equity positions and notes receivable collateralized by real estate, either directly or through entities having an ownership interest therein.

During December 2011, the Operating Partnership made an \$8.5 million loan, which is collateralized by 3 properties located in Chicago, IL. The loan matures in December 2012 and bears interest at 12.0%.

During December 2011, Fund I made a \$12.6 million loan in conjunction with the sale of 15 Kroger/Safeway locations. The loan, which is collateralized by 14 Kroger/Safeway properties, matures in December 2012 and bears interest at 6.0%. There are two six month extension options, the first of which bears interest at 9% and the second bears interest at 12%.

During October 2011, the Operating Partnership made a \$5.4 million construction loan, which is collateralized by an interest in a development in Haledon, NJ. The loan matures in April 2012 and has one six month extension and bears interest at 15.0%.

During September 2011, the Operating Partnership made a \$4.0 million loan to two members of an entity which owns a shopping center in Washington D.C. The note accrues interest at 7% and matures in February 2012. In addition to the loan, the Operating Partnership entered into and subsequently exercised an option to purchase the shopping center at a future date, pending the servicer's approval of the assignment of a first mortgage loan of \$17.0 million. The loan will be offset against the purchase price when the Operating Partnership acquires the property.

During May 2011, we received a final payment of \$54.7 million on a mezzanine loan, representing \$33.8 million of principal, \$13.4 million of accrued interest, and a \$7.5 million exit fee.

During February 2011, the Operating Partnership made a mezzanine loan for \$3.8 million which accrues interest at 15% and is payable upon a capital event. The Operating Partnership also received a payment of \$1.9 million on a mezzanine loan.

During September 2010, we received a final payment of \$49.4 million on a preferred equity investment, representing \$40.0 million of invested capital and \$9.4 million of accrued preferred return.

During December 2009, the Operating Partnership made a loan for \$8.6 million. The original term of this loan was for one year, with two six month extensions, and bore interest at 14.5%. During December 2011, this investment was fully liquidated. The Operating Partnership received \$8.6 million of principal along with \$1.0 million of accrued interest.

The following table sets forth our notes receivable investments as of December 31, 2011:

Notes Receivable

Investment	Principal	Accrued interest	Total	Weighted Averages				Underlying third-party first mortgage loan	
				Stated interest rate	Effective interest rate (1)	Maturity date	Extension options (years)	Amount	Maturity dates

ASSET SALES AND CAPITAL/ASSET RECYCLING

Core Portfolio

We periodically identify certain properties in our Core Portfolio for disposition and redeploy the capital to existing centers or acquisitions with greater potential for capital appreciation. Since 2009, we have sold the following Core Portfolio assets:

(dollars in thousands)

Property	Location	Date sold	Gross leasable area	Sales price
Ledgewood Mall	Ledgewood, New Jersey	May 2011	517,151	\$ 37,000
Blackman Plaza	Wilkes-Barre, Pennsylvania	November 2009	125,264	2,500
Total			<u>642,415</u>	<u>\$ 39,500</u>

Proceeds from these sales in part have been used to fund the Core Portfolio acquisitions as discussed in “—PROPERTY ACQUISITIONS” above.

Monetization of Fund I

Given that Fund I was established as a finite life entity, we are currently engaged in the multi-year process of monetizing the Fund's investments. As of December 31, 2011 there were four assets comprising 0.1 million square feet remaining in Fund I as summarized below:

Shopping Center	Location	Year acquired	GLA
Tarrytown Centre	Tarrytown (Westchester), NY	2004	35,000
Kroger/Safeway properties	3 locations	2003	98,000
Total			133,000

During December 2011, Fund I sold 15 locations in the Kroger/Safeway Portfolio for \$17.5 million, resulting in a \$14.6 million gain. The Operating Partnership's share of the gain was \$2.4 million.

During October 2011, Fund I sold Granville Centre, a 135,000 square foot shopping center, located in Columbus, Ohio, for \$2.3 million, resulting in a loss of \$0.3 million. The Operating Partnership's share of the loss was \$0.1 million. During the quarter ended June 30, 2011, we determined that the value of the Granville Centre was impaired and recorded an impairment loss of \$6.9 million. The Operating Partnership's share of the impairment loss was \$1.5 million.

During March 2010, Fund I sold the Sterling Heights Shopping Center for \$2.3 million. The proceeds from the sale along with Fund I's recourse obligation of \$0.6 million were used to fully liquidate the outstanding loan obligation.

During February 2009, The Kroger Co. purchased the leasehold interest at six locations in Fund I's Kroger/Safeway Portfolio for \$9.5 million, resulting in a \$5.6 million gain. The Operating Partnership's share of the gain was \$0.9 million.

Fund II

During January 2011, Fund II completed the sale of a leasehold interest in the Neiman Marcus location at Oakbrook Center, located in Oak Brook, Illinois, for \$8.2 million. The sale resulted in a gain of \$3.9 million. The Operating Partnership's share of the gain was \$0.8 million.

ENVIRONMENTAL LAWS

For information relating to environmental laws that may have an impact on our business, please see "Item 1A. Risk Factors - Possible liability relating to environmental matters."

COMPETITION

There are numerous entities that compete with us in seeking properties for acquisition and tenants that will lease space in our properties. Our competitors include other REITs, financial institutions, insurance companies, pension funds, private companies and individuals. Our properties compete for tenants with similar properties primarily on the basis of location, total occupancy costs (including base rent and operating expenses) and the design and condition of the improvements.

FINANCIAL INFORMATION ABOUT MARKET SEGMENTS

We have five reportable segments: Core Portfolio, Opportunity Funds, Self-Storage Portfolio, Notes Receivable and Other. Notes Receivable consists of our notes receivable and related interest income, Other primarily consists of management fees and interest income. The accounting policies of the segments are the same as those described in the summary of significant accounting policies set forth in Note 1 to our Consolidated Financial Statements, which begin on page F-1 of this Form 10-K. We evaluate property performance primarily based on net operating income before depreciation, amortization and certain nonrecurring items. Investments in our Core Portfolio are typically held long-term. Given the contemplated finite life of our Opportunity Funds, these investments are typically held for shorter terms. Fees earned by us as general partner/member of the Opportunity Funds are eliminated in our Consolidated Financial Statements. See Note 3 to our Consolidated Financial Statements, which begin on page F-1 of this Form 10-K for information regarding, among other things, revenues from external customers, a measure of profit and loss and total assets with respect to each of our segments.

CORPORATE HEADQUARTERS AND EMPLOYEES

Our executive offices are located at 1311 Mamaroneck Avenue, Suite 260, White Plains, New York 10605, and our telephone number is (914) 288-8100. As of December 31, 2011, we had 114 employees, of which 92 were located at our executive office and 22 were located at regional property management offices. None of our employees are covered by collective bargaining

agreements. Management believes that its relationship with employees is good.

COMPANY WEBSITE

All of our filings with the Securities and Exchange Commission, including our annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, are available at no cost at our website at www.acadiarealty.com, as soon as reasonably practicable after we electronically file such material with, or furnish it to, the Securities and Exchange Commission. These filings can also be accessed through the Securities and Exchange Commission's website at www.sec.gov. Alternatively, we will provide paper copies of our filings at no cost upon request. If you wish to receive a copy of the Form 10-K, you may contact Robert Masters, Corporate Secretary, at Acadia Realty Trust, 1311 Mamaroneck Avenue, Suite 260, White Plains, NY 10605. You may also call (914) 288-8100 to request a copy of the Form 10-K. Information included or referred to on our website is not incorporated by reference in or otherwise a part of this Form 10-K.

CODE OF ETHICS AND WHISTLEBLOWER POLICIES

The Board of Trustees adopted a Code of Business Conduct and Ethics applicable to all employees, as well as a "Whistleblower Policy." Copies of these documents are available in the Investor Information section of our website. We intend to disclose future amendments to, or waivers from (with respect to our senior executive financial officers), our Code of Ethics in the Investor Information section of our website within four business days following the date of such amendment or waiver.

ITEM 1A. RISK FACTORS.

If any of the following risks actually occur, our business, results of operations and financial condition would likely suffer. This section includes or refers to certain forward-looking statements. Refer to the explanation of the qualifications and limitations on such forward-looking statements discussed in the beginning of this Form 10-K.

We rely on revenues derived from major tenants.

We derive significant revenues from certain anchor tenants that occupy space in more than one center. We could be adversely affected in the event of the bankruptcy or insolvency of, or a downturn in the business of, any of our major tenants, or in the event that any such tenant does not renew its leases as they expire or renews at lower rental rates. Vacated anchor space not only would reduce rental revenues if not re-tenanted at the same rental rates but also could adversely affect the entire shopping center because of the loss of the departed anchor tenant's customer drawing power. Loss of customer drawing power also can occur through the exercise of the right that most anchors have to vacate and prevent re-tenanting by paying rent for the balance of the lease term ("going dark") as would the departure of a "shadow" anchor tenant that owns its own property. In addition, in the event that certain major tenants cease to occupy a property, such an action may result in a significant number of other tenants having the right to terminate their leases, or pay a reduced rent based on a percentage of the tenant's sales, at the affected property, which could adversely affect the future income from such property ("co-tenancy"). See "Item 2. Properties—Major Tenants" for quantified information with respect to the percentage of our minimum rents received from major tenants.

We may not be able to renew current leases and the terms of re-letting (including the cost of concessions to tenants) may be less favorable to us than current lease terms.

Upon the expiration of current leases for space located in our properties, we may not be able to re-let all or a portion of that space, or the terms of re-letting (including the cost of concessions to tenants) may be less favorable to us than current lease terms. If we are unable to re-let promptly all or a substantial portion of the space located in our properties or if the rental rates we receive upon re-letting are significantly lower than current rates, our net income and ability to make expected distributions to our shareholders will be adversely affected due to the resulting reduction in revenues. There can be no assurance that we will be able to retain tenants in any of our properties upon the expiration of their leases. See "Item 2. Properties – Lease Expirations" in this Annual Report on Form 10-K for additional information as to the scheduled lease expirations in our portfolio.

The current economic environment, while improving, may cause us to lose tenants and may impair our ability to borrow money to purchase properties, refinance existing debt or finance our current redevelopment projects.

Our operations and performance depend on general economic conditions, including the health of the consumer. The U.S. economy recently experienced a financial downturn, with a decline in consumer spending, credit tightening and high unemployment. This economic downturn has had, and may continue to have, an adverse affect on the businesses of many of our tenants. We and the Opportunity Funds may experience higher vacancy rates as well as delays in re-leasing vacant space.

The current downturn has had, and may continue to have, an unprecedented impact on the global credit markets. While we currently believe we have adequate sources of liquidity, there can be no assurance that we will be able to obtain mortgage loans to purchase

additional properties, obtain financing to complete current redevelopment projects, or successfully refinance our properties as loans become due. To the extent that the availability of credit is limited, it would also adversely impact our notes receivable as counterparties may not be able to obtain the financing required to repay the loans upon maturity.

The bankruptcy of, or a downturn in the business of, any of our major tenants or a significant number of our smaller tenants may adversely affect our cash flows and property values.

The bankruptcy of, or a downturn in the business of, any of our major tenants causing them to reject their leases, or not renew their leases as they expire, or renew at lower rental rates may adversely affect our cash flows and property values. Furthermore, the impact of vacated anchor space and the potential reduction in customer traffic may adversely impact the balance of tenants at a shopping center.

Certain of our tenants have experienced financial difficulties and have filed for bankruptcy under Chapter 11 of the United States Bankruptcy Code (“Chapter 11 Bankruptcy”). Pursuant to bankruptcy law, tenants have the right to reject their leases. In the event the tenant exercises this right, the landlord generally has the right to file a claim for lost rent equal to the greater of either one year’s rent (including tenant expense reimbursements) for remaining terms greater than one year, or 15% of the rent remaining under the balance of the lease term, but not to exceed three years rent. Actual amounts to be received in satisfaction of those claims will be subject to the tenant’s final plan of reorganization and the availability of funds to pay its creditors.

Since January 1, 2010, there have been two significant tenant bankruptcies within our portfolio:

During February 2012, the United Retail Group, which owns and operates Avenue, filed for protection under Chapter 11 Bankruptcy. Avenue operates in four locations in our Core Portfolio, totaling approximately 25,000 square feet. Rental revenues from Avenue at these four locations totaled \$0.7 million for each of the years ended December 31, 2011, 2010 and 2009. United Retail Group has neither affirmed nor rejected any of the leases at any of our locations.

On December 12, 2010, the Great Atlantic & Pacific Tea Company, Inc. (“A&P”) filed for protection under Chapter 11 Bankruptcy. At the time of filing, A&P was a tenant in five of our properties. A&P has affirmed three of its leases. It now operates in two locations in our Core Portfolio, totaling approximately 97,000 square feet. Rental revenues from A&P at these two locations totaled \$2.0 million, \$2.0 million and \$1.9 million for the years ended December 31, 2011, 2010 and 2009, respectively. In addition, A&P operates in one Fund III location, totaling approximately 65,000 square feet. Rental revenues from A&P at this location totaled \$1.0 million for each of the years ended December 31, 2011, 2010 and 2009. A&P has filed a plan of reorganization.

There are risks relating to investments in real estate.

Real property investments are subject to multiple risks. Real estate values are affected by a number of factors, including: changes in the general economic climate, local conditions (such as an oversupply of space or a reduction in demand for real estate in an area), the quality and philosophy of management, competition from other available space, the ability of the owner to provide adequate maintenance and insurance and to control variable operating costs. Shopping centers, in particular, may be affected by changing perceptions of retailers or shoppers regarding the safety, convenience and attractiveness of the shopping center and by the overall climate for the retail industry. Real estate values are also affected by such factors as government regulations, interest rate levels, the availability of financing and potential liability under, and changes in, environmental, zoning, tax and other laws. A significant portion of our income is derived from rental income from real property. Our income and cash flow would be adversely affected if we were unable to rent our vacant space to viable tenants on economically favorable terms. In the event of default by a tenant, we may experience delays in enforcing, and incur substantial costs to enforce, our rights as a landlord. In addition, certain significant expenditures associated with each equity investment (such as mortgage payments, real estate taxes and maintenance costs) are generally not reduced even though there may be a reduction in income from the investment.

Our ability to change our portfolio is limited because real estate investments are illiquid.

Equity investments in real estate are relatively illiquid and, therefore, our ability to change our portfolio promptly in response to changed conditions is limited. Our Board of Trustees may establish investment criteria or limitations as it deems appropriate, but currently does not limit the number of properties in which we may seek to invest or on the concentration of investments in any one geographic region. We could change our investment, disposition and financing policies without a vote of our shareholders.

We could become highly leveraged, resulting in increased risk of default on our obligations and in an increase in debt service requirements, which could adversely affect our financial condition and results of operations and our ability to pay distributions. In addition, the viability of the interest rate hedges we use is subject to the strength of the counterparties.

We have incurred, and expect to continue to incur, indebtedness to support our activities. Neither our Declaration of Trust nor any policy statement formally adopted by our Board of Trustees limits either the total amount of indebtedness or the specified percentage of indebtedness that we may incur. Accordingly, we could become more highly leveraged, resulting in increased risk of default on our obligations and in an increase in debt service requirements, which could adversely affect our financial condition and results

of operations and our ability to make distributions.

Interest expense on our variable rate debt as of December 31, 2011 would increase by \$4.3 million annually for a 100 basis point increase in interest rates. We may seek additional variable-rate financing if and when pricing and other commercial and financial terms warrant. As such, we would consider hedging against the interest rate risk related to such additional variable rate debt, primarily through interest rate swaps but can use other means.

We enter into interest rate hedging transactions, including interest rate swaps and cap agreements, with counterparties. There can be no guarantee that the future financial condition of these counterparties will enable them to fulfill their obligations under these agreements.

Competition may adversely affect our ability to purchase properties and to attract and retain tenants.

There are numerous commercial developers, real estate companies, financial institutions and other investors with greater financial resources than we have that compete with us in seeking properties for acquisition and tenants who will lease space in our properties. Our competitors include other REITs, financial institutions, insurance companies, pension funds, private companies and individuals. This competition may result in a higher cost for properties than we wish to pay. In addition, retailers at our properties (both in our Core Portfolio and in the portfolios of the Opportunity Funds) face increasing competition from outlet malls, discount shopping clubs, internet commerce, direct mail and telemarketing, which could (i) reduce rents payable to us and (ii) reduce our ability to attract and retain tenants at our properties leading to increased vacancy rates at our properties.

We could be adversely affected by poor market conditions where our properties are geographically concentrated.

Our performance depends on the economic conditions in markets in which our properties are concentrated. We have significant exposure to the greater New York region, from which we derive 36% of the annual base rents within our Core Portfolio and 76% of annual base rents within our Opportunity Funds' portfolios. Our operating results could be adversely affected if market conditions, such as an oversupply of space or a reduction in demand for real estate, in this area occurs.

We have pursued, and may in the future continue to pursue extensive growth opportunities, which may result in significant demands on our operational, administrative and financial resources.

We are pursuing extensive growth opportunities. This expansion places significant demands on our operational, administrative and financial resources. The continued growth of our real estate portfolio can be expected to continue to place a significant strain on our resources. Our future performance will depend in part on our ability to successfully attract and retain qualified management personnel to manage the growth and operations of our business. In addition, the acquired properties may fail to operate at expected levels due to the numerous factors that may affect the value of real estate. There can be no assurance that we will have sufficient resources to identify and manage the properties.

Our inability to carry out our growth strategy could adversely affect our financial condition and results of operations.

Our earnings growth strategy is based on the acquisition and development of additional properties, including acquisitions through our Operating Partnership and co-investment programs such as our Opportunity Funds. In the context of our business plan, "redevelopment" generally means an expansion or renovation of an existing property. The consummation of any future acquisitions will be subject to satisfactory completion of our extensive valuation analysis and due diligence review and to the negotiation of definitive documentation. We cannot be sure that we will be able to implement our strategy because we may have difficulty finding new properties, negotiating with new or existing tenants or securing acceptable financing.

Acquisitions of additional properties entail the risk that investments will fail to perform in accordance with expectations, including operating and leasing expectations. Redevelopment is subject to numerous risks, including risks of construction delays, cost overruns or uncontrollable events that may increase project costs, new project commencement risks such as the receipt of zoning, occupancy and other required governmental approvals and permits, and incurring development costs in connection with projects that are not pursued to completion.

A component of our growth strategy is through private-equity type investments made through our RCP Venture. These include investments in operating retailers. The inability of the retailers to operate profitably would have an adverse impact on income realized from these investments. Through our investments in joint ventures we have also invested in operating businesses that have operational risk in addition to the risks associated with real estate investments, including among other risks, human capital issues, adequate supply of product and material, and merchandising issues.

We operate through a partnership structure, which could have an adverse effect on our ability to manage our assets.

Our primary property-owning vehicle is the Operating Partnership, of which we are the general partner. Our acquisition of properties through the Operating Partnership in exchange for interests in the Operating Partnership may permit certain tax deferral advantages

to limited partners who contribute properties to the Operating Partnership. Since properties contributed to the Operating Partnership may have unrealized gain attributable to the difference between the fair market value and adjusted tax basis in such properties prior to contribution, the sale of such properties could cause adverse tax consequences to the limited partners who contributed such properties. Although we, as the general partner of the Operating Partnership, generally have no obligation to consider the tax consequences of our actions to any limited partner, there can be no assurance that the Operating Partnership will not acquire properties in the future subject to material restrictions designed to minimize the adverse tax consequences to the limited partners who contribute such properties. Such restrictions could result in significantly reduced flexibility to manage our assets.

Exclusivity obligation to our Opportunity Funds.

Under the terms of our Opportunity Funds, we are required to first offer to our current fund, all of our opportunities to acquire retail shopping centers with limited exceptions. We may only pursue opportunities to acquire retail shopping centers directly if (i) the ownership of the acquisition opportunity by Fund III would create a material conflict of interest for us; (ii) we require the acquisition opportunity for a “like-kind” exchange; or (iii) the consideration payable for the acquisition opportunity is our Common Shares, OP Units or other securities. As a result, we may not be able to make attractive acquisitions directly and instead may only receive a minority interest in such acquisitions through Fund III.

Risks of joint ventures.

Partnership or joint venture investments may involve risks not otherwise present for investments made solely by us, including the possibility that our partner or co-venturer might become bankrupt, and that our partner or co-venturer may take action contrary to our instructions, requests, policies or objectives, including our policy with respect to maintaining our qualification as a REIT. Other risks of joint venture investments include impasse on decisions, such as a sale, because neither we nor a joint venture partner would have full control over the joint venture. Also, there is no limitation under our organizational documents as to the amount of our funds that may be invested in joint ventures.

Any disputes that may arise between joint venture partners and us may result in litigation or arbitration that would increase our expenses and prevent our officers and/or directors from focusing their time and effort on our business. Consequently, actions by or disputes with joint venture partners might result in subjecting properties owned by the joint venture to additional risk. In addition, we may in certain circumstances be liable for the actions of our third-party joint venture partners.

During 2011, 2010 and 2009, our Fund I and Mervyns I joint ventures provided Promote income. There can be no assurance that the joint ventures will continue to operate profitably and thus provide additional Promote income in the future.

These factors could limit the return that we receive from such investments or cause our cash flows to be lower than our estimates. In addition, a partner or co-venturer may not have access to sufficient capital to satisfy its funding obligations to the joint venture.

Market factors could have an adverse effect on our share price and our ability to access the public equity markets.

One of the factors that may influence the trading price of our Common Shares is the annual dividend rate on our Common Shares as a percentage of its market price. An increase in market interest rates may lead purchasers of our Common Shares to seek a higher annual dividend rate, which could adversely affect the market price of our Common Shares. A decline in our share price, as a result of this or other market factors, could unfavorably impact our ability to raise additional equity in the public markets.

The loss of a key executive officer could have an adverse effect on us.

Our success depends on the contribution of key management members. The loss of the services of Kenneth F. Bernstein, President and Chief Executive Officer, or other key executive-level employees could have a material adverse effect on our results of operations. We have obtained key-man life insurance for Mr. Bernstein. In addition, we have entered into an employment agreement with Mr. Bernstein; however, it can be terminated by Mr. Bernstein in his discretion. We have not entered into employment agreements with other key executive-level employees.

Our Board of Trustees may change our investment policy without shareholder approval.

Our Board of Trustees may determine to change our investment and financing policies, our growth strategy and our debt, capitalization, distribution, acquisition, disposition and operating policies. Our Board of Trustees may establish investment criteria or limitations as it deems appropriate, but currently does not limit the number of properties in which we may seek to invest or on the concentration of investments in any one geographic region. Although our Board of Trustees has no present intention to revise or amend our strategies and policies, it may do so at any time without a vote by our shareholders. Accordingly, the results of decisions made by our Board of Trustees and implemented by management may or may not serve the interests of all of our shareholders and could adversely affect our financial condition or results of operations, including our ability to distribute cash to shareholders or qualify as a REIT.

Distribution requirements imposed by law limit our operating flexibility.

To maintain our status as a REIT for federal income tax purposes, we are generally required to distribute to our shareholders at least 90% of our taxable income for each calendar year. Pursuant to IRS pronouncements, up to 90% of such distribution may be made in Common Shares rather than cash. Our taxable income is determined without regard to any deduction for dividends paid and by excluding net capital gains. To the extent that we satisfy the distribution requirement, but distribute less than 100% of our taxable income, we will be subject to federal corporate income tax on our undistributed income. In addition, we will incur a 4% nondeductible excise tax on the amount, if any, by which our distributions in any year are less than the sum of (i) 85% of our ordinary income for that year; (ii) 95% of our capital gain net income for that year and; (iii) 100% of our undistributed taxable income from prior years. We intend to continue to make distributions to our shareholders to comply with the distribution requirements of the Internal Revenue Code and to minimize exposure to federal income and nondeductible excise taxes. Differences in timing between the receipt of income and the payment of expenses in determining our income as well as required debt amortization payments and the capitalization of certain expenses could require us to borrow funds on a short-term basis to meet the distribution requirements that are necessary to achieve the tax benefits associated with qualifying as a REIT. The distribution requirements also severely limit our ability to retain earnings to acquire and improve properties or retire outstanding debt.

There can be no assurance we have qualified or will remain qualified as a REIT for federal income tax purposes.

We believe that we have consistently met the requirements for qualification as a REIT for federal income tax purposes beginning with our taxable year ended December 31, 1993, and we intend to continue to meet these requirements in the future. However, qualification as a REIT involves the application of highly technical and complex provisions of the Internal Revenue Code, for which there are only limited judicial or administrative interpretations. No assurance can be given that we have qualified or will remain qualified as a REIT. The Internal Revenue Code provisions and income tax regulations applicable to REITs differ significantly from those applicable to other corporations. The determination of various factual matters and circumstances not entirely within our control can potentially affect our ability to continue to qualify as a REIT. In addition, no assurance can be given that future legislation, regulations, administrative interpretations or court decisions will not significantly change the requirements for qualification as a REIT or adversely affect the federal income tax consequences of such qualification. Under current law, if we fail to qualify as a REIT, we would not be allowed a deduction for dividends paid to shareholders in computing our net taxable income. In addition, our income would be subject to tax at the regular corporate rates. We also could be disqualified from treatment as a REIT for the four taxable years following the year during which qualification was lost. Cash available for distribution to our shareholders would be significantly reduced for each year in which we do not qualify as a REIT. In that event, we would not be required to continue to make distributions. Although we currently intend to continue to qualify as a REIT, it is possible that future economic, market, legal, tax or other considerations may cause us, without the consent of our shareholders, to revoke the REIT election or to otherwise take action that would result in disqualification.

Limits on ownership of our capital shares.

For us to qualify as a REIT for federal income tax purposes, among other requirements, not more than 50% of the value of our capital shares may be owned, directly or indirectly, by five or fewer individuals (as defined in the Internal Revenue Code to include certain entities) during the last half of each taxable year after 1993, and such capital shares must be beneficially owned by 100 or more persons during at least 335 days of a taxable year of 12 months or during a proportionate part of a shorter taxable year (in each case, other than the first such year). Our Declaration of Trust includes certain restrictions regarding transfers of our capital shares and ownership limits that are intended to assist us in satisfying these limitations, among other purposes. These restrictions and limits may not be adequate in all cases, however, to prevent the transfer of our capital shares in violation of the ownership limitations. The ownership limit discussed above may have the effect of delaying, deferring or preventing someone from taking control of us.

Actual or constructive ownership of our capital shares in excess of the share ownership limits contained in our Declaration of Trust would cause the violative transfer or ownership to be null and void from the beginning and subject to purchase by us at a price equal to the fair market value of such shares (determined in accordance with the rules set forth in our Declaration of Trust). As a result, if a violative transfer were made, the recipient of the shares would not acquire any economic or voting rights attributable to the transferred shares. Additionally, the constructive ownership rules for these limits are complex and groups of related individuals or entities may be deemed a single owner and consequently in violation of the share ownership limits.

Concentration of ownership by certain investors.

As of December 31, 2011, eight institutional shareholders own 5% or more individually, and 70.8% in the aggregate, of our Common Shares. A significant concentration of ownership may allow an investor or a group of investors to exert a greater influence over our management and affairs and may have the effect of delaying, deferring or preventing a change in control of us.

Restrictions on a potential change of control.

Our Board of Trustees is authorized by our Declaration of Trust to establish and issue one or more series of preferred shares without shareholder approval. We have not established any series of preferred shares. However, the establishment and issuance of a series of preferred shares could make more difficult a change of control of us that could be in the best interests of the shareholders.

In addition, we have entered into an employment agreement with our Chief Executive Officer and severance agreements are in place with our executives which provide that, upon the occurrence of a change in control of us and either the termination of their employment without cause (as defined) or their resignation for good reason (as defined), those executive officers would be entitled to certain termination or severance payments made by us (which may include a lump sum payment equal to defined percentages of annual salary and prior years' average bonuses, paid in accordance with the terms and conditions of the respective agreement), which could deter a change of control of us that could be in the best interests of the shareholders.

Certain provisions of Maryland law may limit the ability of a third party to acquire control of our Company.

Under the Maryland General Corporation Law, as amended, which we refer to as the "MGCL," as applicable to REITs, certain "business combinations," including certain mergers, consolidations, share exchanges and asset transfers and certain issuances and reclassifications of equity securities, between a Maryland REIT and any person who beneficially owns 10% or more of the voting power of the trust's outstanding voting shares or an affiliate or an associate, as defined in the MGCL, of the trust who, at any time within the two-year period immediately prior to the date in question, was the beneficial owner of 10% or more of the voting power of the then-outstanding shares of beneficial interest of the trust, which we refer to as an "interested shareholder," or an affiliate of the interested shareholder, are prohibited for five years after the most recent date on which the interested shareholder becomes an interested shareholder. After that five-year period, any such business combination must be recommended by the board of trustees of the trust and approved by the affirmative vote of at least (1) 80% of the votes entitled to be cast by holders of outstanding voting shares of beneficial interest of the trust and (2) two-thirds of the votes entitled to be cast by holders of voting shares of the trust other than shares held by the interested shareholder with whom, or with whose affiliate, the business combination is to be effected or held by an affiliate or associate of the interested shareholder, unless, among other conditions, the trust's common shareholders receive a minimum price, as defined in the MGCL, for their shares and the consideration is received in cash or in the same form as previously paid by the interested shareholder for its common shares.

These provisions of the MGCL do not apply, however, to business combinations that are approved or exempted by the board of trustees of the trust before the interested shareholder becomes an interested shareholder, and a person is not an interested shareholder if the board of trustees approved in advance the transaction by which the person otherwise would have become an interested shareholder. In approving a transaction, our Board of Trustees may provide that its approval is subject to compliance, at or after the time of approval, with any terms and conditions determined by the Board.

The MGCL also provides that holders of "control shares" of a Maryland REIT (defined as voting shares that, when aggregated with all other shares owned by the acquirer or in respect of which the acquirer is entitled to exercise or direct the exercise of voting power (except solely by virtue of a revocable proxy), would entitle the acquirer to exercise one of three increasing ranges of voting power in electing trustees) acquired in a "control share acquisition" (defined as the direct or indirect acquisition of ownership or control of "control shares") have no voting rights except to the extent approved by the affirmative vote of holders of at least two-thirds of all the votes entitled to be cast on the matter, excluding shares owned by the acquirer, by officers or by employees who are also trustees of the trust. Our Bylaws provide that the control share acquisition statute shall not apply to shares acquired or owned, directly or indirectly, by any person acting in concert with any group (as defined in Section 13 of the Exchange Act and the rules thereunder). Our Bylaws can be amended by our Board of Trustees by majority vote, and there can be no assurance that this provision will not be amended or eliminated at any time in the future.

Additionally, Title 3, Subtitle 8 of the MGCL permits our Board of Trustees, without shareholder approval and regardless of what is currently provided in our Declaration of Trust or Bylaws, to elect to be subject to certain provisions relating to corporate governance that may have the effect of delaying, deferring or preventing a transaction or a change of control of our Company that might involve a premium to the market price of our Common Shares or otherwise be in the best interests of our shareholders. We are subject to some of these provisions (for example, a two-thirds vote requirement for removing a trustee) by provisions of our Declaration of Trust and Bylaws unrelated to Subtitle 8.

Becoming subject to, or the potential to become subject to, these provisions of the MGCL could inhibit, delay or prevent a transaction or a change of control of our Company that might involve a premium price for our shareholders or otherwise be in our or their best interests. In addition, the provisions of our Declaration of Trust on removal of trustees and the provisions of our Bylaws regarding advance notice of shareholder nominations of trustees and other business proposals and restricting shareholder action outside of a shareholders meeting unless such action is taken by unanimous written consent could have a similar effect.

Our rights and shareholders' rights to take action against trustees and officers are limited, which could limit recourse in the event of actions not in the best interests of shareholders.

As permitted by Maryland law, our Declaration of Trust eliminates the liability of our trustees and officers to the Company and its shareholders for money damages, except for liability resulting from:

- actual receipt of an improper benefit or profit in money, property or services; or
- a final judgment based upon a finding of active and deliberate dishonesty by the trustee or officer that was material to the cause of action adjudicated.

In addition, our Declaration of Trust authorizes, and our Bylaws obligate, us to indemnify each present or former trustee or officer, to the maximum extent permitted by Maryland law, who is made a party to any proceeding because of his or her service to our Company. As part of these indemnification obligations, we may be obligated to fund the defense costs incurred by our trustees and officers.

Legislative or regulatory tax changes could have an adverse effect on us.

There are a number of issues associated with an investment in a REIT that are related to the federal income tax laws, including, but not limited to, the consequences of our failing to continue to qualify as a REIT. At any time, the federal income tax laws governing REITs or the administrative interpretations of those laws may be amended or modified. Any new laws or interpretations may take effect retroactively and could adversely affect us or our shareholders. Reduced tax rates applicable to certain corporate dividends paid to most domestic noncorporate shareholders are not generally available to REIT shareholders since a REIT's income generally is not subject to corporate level tax. As a result, investment in non-REIT corporations may be viewed as relatively more attractive than investment in REITs by domestic noncorporate investors. This could adversely affect the market price of our shares.

Our development and construction activities could affect our operating results.

We intend to continue the selective development and construction of retail properties, with our project at CityPoint currently being our largest development project (see "Item 1. BUSINESS - PROPERTY ACQUISITIONS - Opportunity Funds -- Fund II New York Urban/Infill Redevelopment Initiative - Under Construction" for a description of the CityPoint project).

As opportunities arise, we expect to delay construction until sufficient pre-leasing is reached and financing is in place. Our development and construction activities include risks that:

- We may abandon development opportunities after expending resources to determine feasibility;
- Construction costs of a project may exceed our original estimates;
- Occupancy rates and rents at a newly completed property may not be sufficient to make the property profitable;
- Financing for development of a property may not be available to us on favorable terms;
- We may not complete construction and lease-up on schedule, resulting in increased debt service expense and construction costs; and
- We may not be able to obtain, or may experience delays in obtaining necessary zoning, land use, building, occupancy and other required governmental permits and authorizations.

Additionally, the time frame required for development, construction and lease-up of these properties means that we may not realize a significant cash return for several years. If any of the above events occur, the development of properties may hinder our growth and have an adverse effect on our results of operations and cash flows. In addition, new development activities, regardless of whether or not they are ultimately successful, typically require substantial time and attention from management.

Redevelopments and acquisitions may fail to perform as expected.

Our investment strategy includes the redevelopment and acquisition of shopping centers in supply constrained markets in densely populated areas with high average household incomes and significant barriers to entry. The redevelopment and acquisition of properties entails risks that include the following, any of which could adversely affect our results of operations and our ability to meet our obligations:

- The property may fail to achieve the returns we have projected, either temporarily or for extended periods;
- We may not be able to identify suitable properties to acquire or may be unable to complete the acquisition of the properties we identify;
- We may not be able to integrate an acquisition into our existing operations successfully;
- Properties we redevelop or acquire may fail to achieve the occupancy or rental rates we project, within the time frames we project, at the time we make the decision to invest, which may result in the properties' failure to achieve the returns we projected;

- Our pre-acquisition evaluation of the physical condition of each new investment may not detect certain defects or identify necessary repairs until after the property is acquired, which could significantly increase our total acquisition costs or decrease cash flow from the property; and
- Our investigation of a property or building prior to our acquisition, and any representations we may receive from the seller of such building or property, may fail to reveal various liabilities, which could reduce the cash flow from the property or increase our acquisition cost.

Climate change and catastrophic risk from natural perils.

Some of our current properties could be subject to potential natural or other disasters. We may acquire properties that are located in areas which are subject to natural disasters. Any properties located in coastal regions would therefore be affected by any future increases in sea levels or in the frequency or severity of hurricanes and tropical storms, whether such increases are caused by global climate changes or other factors.

Climate change is a long-term change in the statistical distribution of weather patterns over periods of time that range from decades to millions of years. It may be a change in the average weather conditions or a change in the distribution of weather events with respect to an average, for example, greater or fewer extreme weather events. Climate change may be limited to a specific region, or may occur across the whole Earth.

There may be significant physical effects of climate change that have the potential to have a material effect on our business and operations. These effects can impact our personnel, physical assets, tenants and overall operations.

Physical impacts of climate change may include:

- Increased storm intensity and severity of weather (e.g., floods or hurricanes);
- Sea level rise; and
- Extreme temperatures.

As a result of these physical impacts from climate-related events, we may be vulnerable to the following:

- Risks of property damage to our shopping centers;
- Indirect financial and operational impacts from disruptions to the operations of major tenants located in our shopping centers from severe weather, such as hurricanes or floods;
- Increased insurance premiums and deductibles, or a decrease in the availability of coverage, for properties in areas subject to severe weather;
- Increased insurance claims and liabilities;
- Increases in energy costs impacting operational returns;
- Changes in the availability or quality of water, or other natural resources on which the tenant's business depends;
- Decreased consumer demand for consumer products or services resulting from physical changes associated with climate change (e.g., warmer temperatures or decreasing shoreline could reduce demand for residential and commercial properties previously viewed as desirable);
- Incorrect long term valuation of an equity investment due to changing conditions not previously anticipated at the time of the investment; and
- Economic disruptions arising from the above.

Possible liability relating to environmental matters.

Under various federal, state and local environmental laws, statutes, ordinances, rules and regulations, as an owner of real property, we may be liable for the costs of removal or remediation of certain hazardous or toxic substances at, on, in or under our property, as well as certain other potential costs relating to hazardous or toxic substances (including government fines and penalties and damages for injuries to persons and adjacent property). These laws may impose liability without regard to whether we knew of, or were responsible for, the presence or disposal of those substances. This liability may be imposed on us in connection with the activities of an operator of, or tenant at, the property. The cost of any required remediation, removal, fines or personal or property damages and our liability therefore could exceed the value of the property and/or our aggregate assets. In addition, the presence of those substances, or the failure to properly dispose of or remove those substances, may adversely affect our ability to sell or rent that property or to borrow using that property as collateral, which, in turn, could reduce our revenues and affect our ability to make distributions.

A property can also be adversely affected either through physical contamination or by virtue of an adverse effect upon value attributable to the migration of hazardous or toxic substances, or other contaminants that have or may have emanated from other properties. Although our tenants are primarily responsible for any environmental damages and claims related to the leased premises, in the event of the bankruptcy or inability of any of our tenants to satisfy any obligations with respect to the property leased to that tenant, we may be required to satisfy such obligations. In addition, we may be held directly liable for any such damages or

claims irrespective of the provisions of any lease.

From time to time, in connection with the conduct of our business, and prior to the acquisition of any property from a third party or as required by our financing sources, we authorize the preparation of Phase I environmental reports and, when necessary, Phase II environmental reports, with respect to our properties. Based upon these environmental reports and our ongoing review of our properties, we are currently not aware of any environmental condition with respect to any of our properties that we believe would be reasonably likely to have a material adverse effect on us. There can be no assurance, however, that the environmental reports will reveal all environmental conditions at our properties or that the following will not expose us to material liability in the future:

- The discovery of previously unknown environmental conditions;
- Changes in law;
- Activities of tenants; and
- Activities relating to properties in the vicinity of our properties.

Changes in laws increasing the potential liability for environmental conditions existing on properties or increasing the restrictions on discharges or other conditions may result in significant unanticipated expenditures or may otherwise adversely affect the operations of our tenants, which could adversely affect our financial condition or results of operations.

Uninsured losses or a loss in excess of insured limits could adversely affect our financial condition.

We carry comprehensive general liability, fire, extended coverage, loss of rent insurance, and environmental liability on most of our properties, with policy specifications and insured limits customarily carried for similar properties. However, with respect to those properties where the leases do not provide for abatement of rent under any circumstances, we generally do not maintain loss of rent insurance. In addition, there are certain types of losses, such as losses resulting from wars, terrorism or acts of God that generally are not insured because they are either uninsurable or not economically insurable. Should an uninsured loss or a loss in excess of insured limits occur, we could lose capital invested in a property, as well as the anticipated future revenues from a property, while remaining obligated for any mortgage indebtedness or other financial obligations related to the property. Any loss of these types would adversely affect our financial condition.

Future terrorist attacks or civil unrest could harm the demand for, and the value of, our properties.

Future terrorist attacks or civil unrest, such as the attacks that occurred in New York, Pennsylvania and Washington, D.C. on September 11, 2001, and other acts of terrorism or war, could harm the demand for, and the value of, our properties. Terrorist attacks could directly impact the value of our properties through damage, destruction, loss or increased security costs, and the availability of insurance for such acts may be limited or may be subject to substantial cost increases. To the extent that our tenants are impacted by future attacks, their ability to continue to honor obligations under their existing leases could be adversely affected. A decrease in retail demand could make it difficult for us to renew or re-lease our properties at lease rates equal to or above historical rates. These acts might erode business and consumer confidence and spending, and might result in increased volatility in national and international financial markets and economies. Any one of these events might decrease demand for real estate, decrease or delay the occupancy of our properties, and limit our access to capital or increase our cost of raising capital.

Outages, computer viruses and similar events could disrupt our operations.

We rely on information technology networks and systems, some of which are owned and operated by third parties, to process, transmit and store electronic information. Any of these systems may be susceptible to outages due to fire, floods, power loss, telecommunications failures, terrorist attacks and similar events. Despite the implementation of network security measures, our systems and those of third parties on which we rely may also be vulnerable to computer viruses and similar disruptions. If we and the third parties on whom we rely are unable to prevent such outages and breaches, our operations could be disrupted.

ITEM 1B. UNRESOLVED STAFF COMMENTS.

None.

ITEM 2. PROPERTIES.

SHOPPING CENTER PROPERTIES

The discussion and tables in this Item 2. include properties held through our Core Portfolio and our Opportunity Funds. We define our Core Portfolio as those properties either 100% owned by, or partially owned through joint venture interests by, the Operating Partnership, or subsidiaries thereof, not including those properties owned through our Opportunity Funds. The discussion of the

Opportunity Funds does not include our investment in a portfolio of self-storage properties, which are detailed separately within this Item 2.

As of December 31, 2011, there are 48 operating properties in our Core Portfolio totaling approximately 5.0 million square feet of gross leasable area (“GLA”). The Core Portfolio properties are located in 12 states and the District of Columbia and are generally well-established urban/street retail locations and community and neighborhood shopping centers. Our shopping centers are predominately anchored by supermarkets or value-oriented retail. The properties are diverse in size, ranging from approximately 3,000 to 875,000 square feet and as of December 31, 2011, were, in total, 91% occupied.

As of December 31, 2011, we owned and operated 19 properties totaling 2.5 million square feet of GLA in our Opportunity Funds, excluding three properties under redevelopment. In addition to shopping centers, the Opportunity Funds have invested in mixed-use properties, which generally include retail activities and self-storage properties. The Opportunity Fund properties are located in nine states and as of December 31, 2011, were, in total, 87% occupied.

Within our Core Portfolio and Opportunity Funds, we had approximately 600 leases as of December 31, 2011. A majority of our rental revenues were from national retailers. A majority of the income from the properties consists of rent received under long-term leases. These leases generally provide for the payment of fixed minimum rent monthly in advance and for the payment by tenants of a pro-rata share of the real estate taxes, insurance, utilities and common area maintenance of the shopping centers. Minimum rents and expense reimbursements accounted for approximately 89% of our total revenues for the year ended December 31, 2011.

Certain of our leases also provided for the payment of percentage rents either in addition to, or in place of, minimum rents. These arrangements generally provide for payment to us of a certain percentage of a tenant’s gross sales in excess of a stipulated annual amount. Percentage rents accounted for less than 1% of our total 2011 revenues.

Three of our Core Portfolio properties and six of our Opportunity Fund properties are subject to long-term ground leases in which a third party owns and has leased the underlying land to us. We pay rent for the use of the land and are responsible for all costs and expenses associated with the building and improvements at all nine locations.

No individual property contributed in excess of 10% of our total revenues for the years ended December 31, 2011, 2010 or 2009. Reference is made to Note 8 to our Consolidated Financial Statements, which begin on page F-1 of this Form 10-K, for information on the mortgage debt pertaining to our properties. The following sets forth more specific information with respect to each of our shopping centers at December 31, 2011:

SELF-STORAGE PORTFOLIO

During February 2008, we, through Fund III, acquired a 95% controlling interest in a portfolio of eleven self-storage properties from Storage Post's existing institutional investors for approximately \$174.0 million. In addition, we, through Fund II, developed three self-storage properties. The fourteen self-storage property portfolio, located throughout New York and New Jersey, totals 1,124,135 net rentable square feet, and is operating at various stages of stabilization as detailed in the table below. The portfolio is operated by Self Storage Management, a joint venture entity formed by Fund III and an unaffiliated partner.

ITEM 3. LEGAL PROCEEDINGS.

We are involved in various matters of litigation arising in the normal course of business. While we are unable to predict with any certainty the amounts involved, management is of the opinion that, when such litigation is resolved, our resulting exposure to loss contingencies, if any, will not have a significant effect on our consolidated financial position, results of operations, or liquidity.

In addition to the foregoing, we are currently involved in the following litigation matters:

In September 2008, the Company, certain of its subsidiaries, and other unrelated entities (the "Investor Consortium") were named as defendants in an adversary proceeding brought by Mervyn's LLC ("Mervyns") in the United States Bankruptcy Court for the

District of Delaware. The action involves five claims alleging fraudulent transfers in which Mervyns is nominally seeking approximately \$1.175 billion in damages from the Investor Consortium, although the actual claims made by the administrator and the unsecured creditors are substantially less. The first claim contends that, at the time of the sale of Mervyns by Target Corporation to the Investor Consortium, a transfer of assets was made in an effort to defraud creditors. The Company believes that this aspect of the case is without merit. The remaining four claims relate to transfers of assets of Mervyns at various times after the sale by Target. The Company believes that there are substantial defenses to these claims and intends to continue to defend them vigorously. This matter is in the early stages of discovery. The parties to this action have agreed to a non-binding mediation, which is scheduled for the end of March, 2012.

Because of the inherently unpredictable nature of litigation, the Company could incur some amount of liability in connection with this matter. However, at the present time, there have not been sufficient developments in this matter for us to estimate the reasonably possible loss or range of loss that the Company might incur as a result of this matter.

During August 2009, we terminated the employment of a former Senior Vice President (the "Former Employee") for engaging in conduct that fell within the definition of "cause" in his severance agreement with us. Had the Former Employee not been terminated for "cause," he would have been eligible to receive approximately \$0.9 million under the severance agreement. Because we terminated him for "cause," we did not pay the Former Employee any severance benefits under the agreement. The Former Employee has brought a lawsuit against us in New York State Supreme Court, alleging breach of the severance agreement. The suit is in the pre-trial discovery stage. We believe we have meritorious defenses to the suit.

ITEM 4. MINE SAFETY DISCLOSURES.

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

(a) Market Information, dividends and record holders of our Common Shares

The following table shows, for the period indicated, the high and low sales price for our Common Shares as reported on the New York Stock Exchange, and cash dividends declared during the two years ended December 31, 2011 and 2010:

<u>Quarter Ended</u>		<u>High</u>	<u>Low</u>	<u>Dividend</u>

December 31, 2010		20.17		17.72		0.1800

At February 28, 2012, there were 311 holders of record of our Common Shares.

We have determined for income tax purposes that 97% of the total dividends distributed to shareholders during 2011 represented ordinary income (22% qualified dividends and 75% nonqualified dividends) and 3% represented capital gains. The dividend for the quarter ended December 31, 2011 was paid on February 1, 2012 and will be taxable in 2012. Our cash flow is affected by a number of factors, including the revenues received from rental properties, our operating expenses, the interest expense on our borrowings, the ability of lessees to meet their obligations to us and unanticipated capital expenditures. Future dividends paid by us will be at the discretion of the Trustees and will depend on our actual cash flows, our financial condition, capital requirements, the annual distribution requirements under the REIT provisions of the Code and such other factors as the Trustees deem relevant. In addition, we have the ability to pay dividends in cash, Common Shares or in any combination of cash (minimum 10%) and Common Shares (maximum 90%).

(b) Issuer purchases of equity securities

We have an existing share repurchase program that authorizes management, at its discretion, to repurchase up to \$20.0 million of our outstanding Common Shares. The program may be discontinued or extended at any time and there is no assurance that we will purchase the full amount authorized. There were no Common Shares repurchased by us during the year ended December 31, 2011. Under this program we have repurchased 2.1 million Common Shares, none of which were repurchased after December 2001. As of December 31, 2011, management may repurchase up to approximately \$7.5 million of our outstanding Common Shares under this program.

(c) Securities authorized for issuance under equity compensation plans

The following table provides information related to our 1999 Share Incentive Plan (the "1999 Plan"), 2003 Share Incentive Plan (the "2003 Plan") and the 2006 Share Incentive Plan (the "2006 Plan") as of December 31, 2011:

	Equity Compensation Plan Information		
	(a)	(b)	(c)

Equity compensation plans approved by security holders	150,283	\$ 18.33	600,451 (1)
Equity compensation plans not approved by security holders	—	—	—
Total	150,283	\$ 18.33	600,451 (1)

Notes:

- (1) The 1999 Plan authorizes the issuance of incentive awards equal to up to 8% of the total Common Shares outstanding from time to time on a fully diluted basis. However, not more than 4,000,000 of the Common Shares in the aggregate may be issued pursuant to any incentive awards and no participant may receive more than 5,000,000 Common Shares during the term of the 1999 Plan. The 2003 Plan authorizes the issuance of incentive awards equal to up to 4% of the total Common Shares outstanding from time to time on a fully diluted basis. However, no participant may receive more than 1,000,000 Common Shares during the term of the 2003 Plan. The 2006 Plan authorizes the issuance of a maximum number of 500,000 Common Shares. No participant may receive more than 500,000 Common Shares during the term of the 2006 Plan. We have also issued LTIP Units, which are generally exchangeable on a one-for-one basis for our Operating Partnership Units which in turn are convertible into Common Shares. Reference is made to Note 15 to our Consolidated Financial Statements, which begin on Page F-1 of this Form 10-K, for a summary of our Share Incentive Plans.

Remaining Common Shares available under our share incentive plans is as follows:

Outstanding Common Shares as of December 31, 2011	42,586,376
Outstanding OP Units as of December 31, 2011	497,574
Total Outstanding Common Shares and OP Units	43,083,950
12% of Common Shares and OP Units pursuant to the 1999 and 2003 Plans	5,170,074
Common Shares pursuant to the 2006 Plan	500,000
Total Common Shares available under equity compensation plans	5,670,074
Less: Issuance of Restricted Shares and LTIP Units Granted	(2,294,104)
Issuance of Options Granted	(2,775,519)
Number of Common Shares remaining available	600,451

(d) Share Price Performance Graph (1)

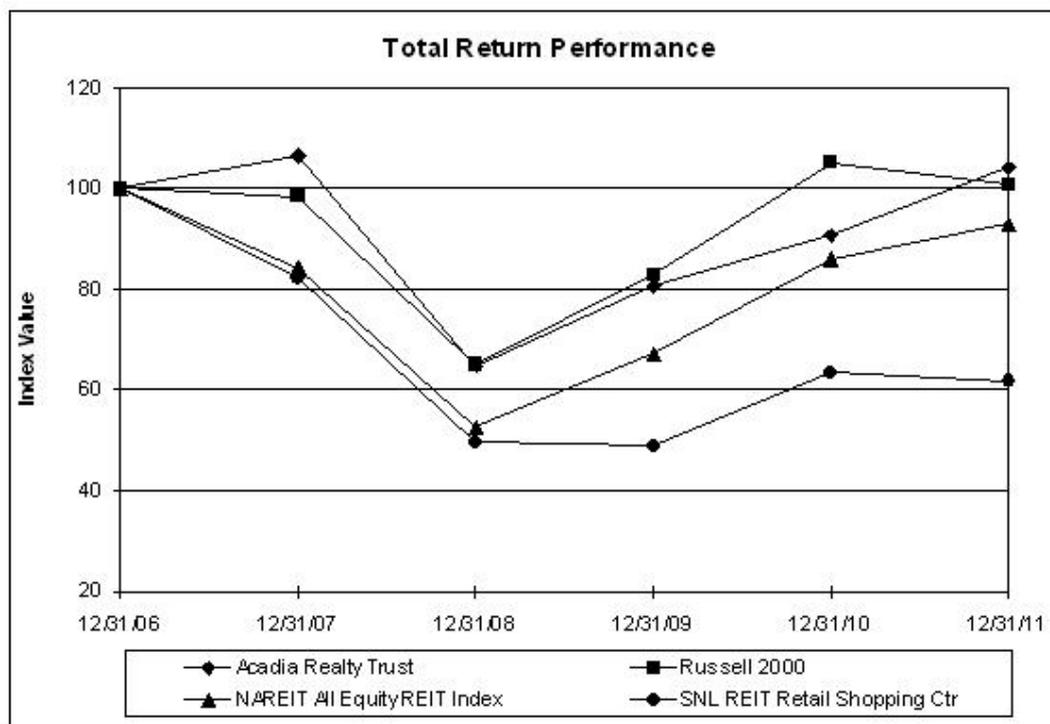

The following graph compares the cumulative total shareholder return for our Common Shares for the period commencing December 31, 2006 through December 31, 2011 with the cumulative total return on the Russell 2000 Index ("Russell 2000"), the

NAREIT All Equity REIT Index (the “NAREIT”) and the SNL Shopping Center REITs (the “SNL”) over the same period. Total return values for the Russell 2000, the NAREIT, the SNL and the Common Shares were calculated based upon cumulative total return assuming the investment of \$100.00 in each of the Russell 2000, the NAREIT, the SNL and our Common Shares on December 31, 2006, and assuming reinvestment of dividends. The shareholder return as set forth in the table below is not necessarily indicative of future performance.

Notes:

- (1) The extraordinary item relates to 2007 and represents our share of an extraordinary gain from our investment in Albertson's. We consider this to be a private-equity style investment in an operating businesses as opposed to real estate. Accordingly, all gains and losses from this investment is included in FFO, which we believe provides a more accurate reflection of our operating performance.
- (2) We consider funds from operations ("FFO") as defined by the National Association of Real Estate Investment Trusts ("NAREIT") to be an appropriate supplemental disclosure of operating performance for an equity REIT due to its widespread acceptance and use within the REIT and analyst communities. FFO is presented to assist investors in analyzing our performance. It is helpful as it excludes various items included in net income that are not indicative of the operating performance, such as gains (losses) from sales of depreciated property and depreciation and amortization. However, our method of calculating FFO may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. FFO does not represent cash generated from operations as defined by generally accepted accounting principles ("GAAP") and is not indicative of cash available to fund all cash needs, including distributions. It should not be considered as an alternative to net income for the purpose of evaluating our performance or to cash flows as a measure of liquidity. Consistent with the NAREIT definition, we define FFO as net income (computed in accordance with GAAP), excluding gains (losses) from sales of depreciated property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. See "Reconciliation of Net Income to Funds From Operations and Adjusted Funds From Operations" in Item 7 below.
- (3) In addition to the \$0.8951 cash dividends declared in 2008, we declared a Common Share dividend of \$0.4949.

ITEM 7. MANagements DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

OVERVIEW

As of December 31, 2011, we operated 82 properties, which we own or have an ownership interest in, within our Core Portfolio or within our three Opportunity Funds. Our Core Portfolio consists of those properties either 100% owned by, or partially owned through joint venture interests by the Operating Partnership, or subsidiaries thereof, not including those properties owned through our Opportunity Funds. These 82 properties consist of commercial properties, primarily urban/street retail locations, neighborhood and community shopping centers, mixed-use properties with a retail component and urban self-storage locations. The properties we operate are located primarily in high-barrier-to-entry, densely-populated metropolitan areas in the United States along the East Coast and in Chicago. There are 48 properties in our Core Portfolio totaling approximately 5.0 million square feet. Fund I has four remaining properties comprising approximately 0.1 million square feet. Fund II has nine properties, seven of which (representing 1.2 million square feet) are currently operating, one is under construction, and one is in the design phase. Three of the properties also include a self-storage component. We expect the Fund II portfolio will have approximately 2.0 million square feet upon completion of all current construction and anticipated redevelopment activities. Fund III has 21 properties totaling approximately 2.3 million square feet, of which 11 locations representing 0.9 million net rentable square feet are self-storage facilities. The majority of our operating income is derived from rental revenues from these 82 properties, including recoveries from tenants, offset by operating and overhead expenses. As our RCP Venture invests in operating companies, we consider these investments to be private-equity style, as opposed to real estate, investments. Since these are not traditional investments in operating

rental real estate but investments in operating businesses, the Operating Partnership invests in these through a taxable REIT subsidiary (“TRS”).

Our primary business objective is to acquire and manage commercial retail properties that will provide cash for distributions to shareholders while also creating the potential for capital appreciation to enhance investor returns. We focus on the following fundamentals to achieve this objective:

- Own and operate a Core Portfolio (as defined in Item 2. of this Form 10-K) of high-quality retail properties located primarily in high-barrier-to-entry, densely-populated metropolitan areas and create value through accretive redevelopment and re-anchoring activities coupled with the acquisition of high-quality assets that have the long-term potential to outperform the asset class as part of our Core asset recycling and acquisition initiative.
- Generate additional external growth through an opportunistic yet disciplined acquisition program through our Opportunity Funds(as defined in Item 1. of this Form 10-K). We target transactions with high inherent opportunity for the creation of additional value through:
 - value-add investments in high-quality urban and/or street retail properties with re-tenanting or repositioning opportunities,
 - opportunistic acquisitions of well-located real-estate anchored by distressed retailers or by motivated sellers and
 - opportunistic purchases of debt which may include restructuring.

These may also include joint ventures with private equity investors for the purpose of making investments in operating retailers with significant embedded value in their real estate assets.

- Maintain a strong and flexible balance sheet through conservative financial practices while ensuring access to sufficient capital to fund future growth.

BUSINESS OUTLOOK

The U.S. economy is currently in a post-recessionary period. The recession resulted in a significant decline in retail sales due to reduced consumer spending. Although the occupancy and net operating income within our portfolio has not been materially adversely affected through December 31, 2011, should the overall economy again decline, we would expect retailers to experience deteriorating sales performance, and the likelihood of additional tenant bankruptcy filings may increase, which would negatively impact our results of operations. In addition to the impact on retailers, the recession had a significant impact on the U.S. credit markets. Some sources of financing, such as the commercial-mortgage backed security market, are still severely curtailed. If economic conditions again deteriorate, our ability to finance new acquisitions or refinance existing debts as they mature could be adversely affected. Accordingly, our ability to generate external growth in income, as well as maintain existing operating income, could be limited.

See the “Item 1A. Risk Factors,” including the discussions under the headings “The current economic environment, while improving, may cause us to lose tenants and may impair our ability to borrow money to purchase properties, refinance existing debt or finance our current redevelopment projects” and “The bankruptcy of, or a downturn in the business of, any of our major tenants or a significant number of our smaller tenants may adversely affect our cash flows and property values.”

RESULTS OF OPERATIONS

Reference is made to Note 3 to the Notes to Consolidated Financial Statements beginning on page F-1 of this Form 10-K for an overview of our five reportable segments.

A discussion of the significant variances and primary factors contributing thereto within the results of operations for the years ended December 31, 2011, 2010 and 2009 are addressed below:

Comparison of the year ended December 31, 2011 ("2011") to the year ended December 31, 2010 ("2010")

Total revenues	\$ 58.0	\$ 55.8	\$ 23.2	\$ 13.1	\$ 57.1	\$ 42.1	\$ 21.3	\$ 20.6

Note:

- (1) Includes fees earned by us as general partner/managing member of the Opportunity Funds that are eliminated in consolidation and adjusts the loss (income) attributable to noncontrolling interests. The balance reflected in the table represents third party fees that are not eliminated in consolidation. Reference is made to Note 3 of the Notes to Consolidated Financial Statements which begin on page F-1 of this Form 10-K for an overview of our five reportable segments.

The increase in rental income in the Core Portfolio was primarily attributable to additional rents following the acquisitions of West Diversey, Mercer Street and the Latsko properties in 2011 ("2011 Core Acquisitions"). Rental income in the Opportunity Funds increased from additional rents at Canarsie, Pelham Manor, 161st Street and Westport of \$10.2 million for leases that commenced during 2010 and 2011 ("Fund Redevelopment Properties") as well as additional rents of \$2.1 million following the acquisition of The Heritage Shops at Millennium Park ("2011 Fund Acquisition") during April 2011. The increase in rental income in the Self-Storage Investments was a result of increased occupancy and rental rates throughout the Storage Portfolio.

Interest income decreased as a result of the full repayment of two notes during 2010 and 2011.

Expense reimbursements in the Opportunity Funds increased for both real estate taxes and common area maintenance primarily as a result of the Fund Redevelopment Properties and the 2011 Fund Acquisition.

<i>Operating Expenses</i>	2011				2010			
	Core Portfolio	Opportunity Funds	Self-Storage Investments	Notes Receivable and Other	Core Portfolio	Opportunity Funds	Self-Storage Investments	Notes Receivable and Other
(dollars in millions)								
Property operating	\$ 8.4	\$ 11.5	\$ 11.9	\$ (2.4)	\$ 9.0	\$ 11.4	\$ 10.3	\$ (1.5)

Total operating expenses	\$ 55.4	\$ 51.1	\$ 18.7	\$ (21.1)	\$ 53.4	\$ 42.0	\$ 17.7	\$ (17.7)

The increase in property operating expenses in the Self-Storage Investments primarily related to higher operating costs in 2011 following increased occupancy throughout the Storage Portfolio.

Real estate taxes in the Opportunity Funds increased due to the Fund Redevelopment Properties and the 2011 Fund Acquisition.

General and administrative expense in the Core Portfolio increased as a result of higher stock compensation expense and employee severance costs during 2011. The increase in general and administrative expense in the Opportunity Funds related to an increase in Promote expense within Fund I resulting from the sale of 15 Kroger/Safeway properties. The variance in the Other category was related to the elimination of Fund I Promote expense for consolidated financial statement presentation purposes.

Depreciation and amortization expense in the Opportunity Funds increased due to the Fund Redevelopment Properties and the 2011 Fund Acquisition.

- Discontinued operations	—	—	—	(10.7)	—	—	—	(1.5)

Equity in earnings (losses) of unconsolidated affiliates in the Opportunity Funds decreased primarily as a result of a decrease in distributions in excess of basis from our Albertson's investment of \$6.3 million in 2011 and a decrease in our pro-rata share of income from Mervyns in 2011. The Self Storage Investments equity in earnings (losses) represents our pro-rata share of losses from our unconsolidated investment in a self storage management company which manages 21 locations, including our 14 self storage properties. The self storage management company currently operates at a deficit, however it plans to increase third-party assets under management to ultimately achieve profitability.

The \$33.8 million gain from bargain purchase was attributable to Fund II's purchase of an unaffiliated membership interest in CityPoint in 2010. Reference is made to Note 4 of the Notes to Consolidated Financial Statements which begin on page F-1 of this Form 10-K for a discussion of this transaction.

Gain on debt extinguishment of \$1.3 million was the result of the purchase of mortgage debt at a discount in 2011.

Interest expense in the Core Portfolio decreased \$2.0 million in 2011. This was the result of a decrease in average outstanding borrowings during 2010 resulting in a decrease of \$1.5 million as well as a decrease in loan amortization expense of \$0.4 million related to refinanced debt in 2011. Interest expense in the Opportunity Funds decreased \$1.7 million in 2011. This was attributable to higher capitalized interest in 2011 and a decrease in loan amortization expense related to refinanced debt in 2010. These decreases were offset by an increase of \$2.8 million related to higher average outstanding borrowings in 2011. Interest expense in the Self-Storage Investments decreased \$1.1 million in 2011. This was primarily attributable to lower average interest rates during 2011.

The variance in the income tax provision in the Core Portfolio related to income taxes at the TRS level for our pro-rata share of income from our Albertson's investment in 2010 and an overaccrual of the 2010 tax liability at the TRS levels.

Income from discontinued operations represents activity related to property sales during 2011.

(Loss) income attributable to noncontrolling interests – Continuing operations and Discontinued operations primarily represents the noncontrolling interests' share of all the Opportunity Funds variances discussed above.

The balance reflected in the table represents third party fees that are not eliminated in consolidation. Reference is made to Note 3 of the Notes to Consolidated Financial Statements which begin on page F-1 of this Form 10-K for an overview of our five reportable segments.

The decrease in rental income in the Core Portfolio was primarily attributable to tenant vacancies at Chestnut Hill and Third Avenue. Rental income in the Opportunity Funds increased as a result of additional rents following the acquisition of Cortlandt Towne Center in January, 2009 (“2009 Fund Acquisition”) of \$1.0 million and additional rents at Fordham Place, Pelham Manor and Canarsie for leases that commenced in 2009 and 2010 (“2009/2010 Fund Redevelopment Properties”). The increase in rental income in the Storage Portfolio related to the full amortization of acquired lease intangible costs during 2009, increased occupancy in the Self-Storage Investments in 2010 as well as our discontinued practice of reporting the Storage Portfolio one month in arrears which was based on the historical unavailability of timely financial information. Based on improvements in the Storage Portfolio accounting systems, we report this activity on a current basis. Accordingly, the year ended December 31, 2010 reflects thirteen months of storage activity while the year ended December 31, 2009 reflects twelve months of storage activity (“Storage Portfolio Activity”).

Expense reimbursements in the Opportunity Funds increased for both real estate taxes and common area maintenance primarily as a result of the 2009 Fund Acquisition and 2009/2010 Fund Redevelopment Properties.

Lease termination income in the Core Portfolio for 2009 related to termination fee income received from a former tenant at Absecon Marketplace.

Other in the Core Portfolio in 2009 included \$1.7 million resulting from a forfeited sales contract deposit.

Other in the Opportunity Funds during 2009 included \$0.9 million received by Fund II in settlement of litigation in connection with a property acquisition.

Operating Expenses	2010				2009

Property operating expenses in the Core Portfolio decreased as a result of a decrease in bad debt expense in 2010. The increase in property operating expenses in the Opportunity Funds was primarily attributable to the 2009 Fund Acquisition and 2009/2010

Fund Redevelopment Properties. The increase in property operating expenses in the Self-Storage Investments primarily related to higher operating costs in 2010 following increased occupancy as well as the Storage Portfolio Activity.

The increase in real estate taxes in the Opportunity Funds was primarily attributable to the 2009 Fund Acquisition as well as 2009/2010 Fund Redevelopment Properties.

The decrease in general and administrative expense in the Core Portfolio was primarily attributable to reduced compensation expense following staff reductions in 2009.

Depreciation and amortization expense in the Core Portfolio decreased as a result of the write-off of lease intangible costs in connection with a terminated lease in 2009. The increase in depreciation and amortization in the Self-Storage Investments was the result of two self storage properties placed in service during the second quarter 2009.

The \$2.5 million abandonment of project costs in the Opportunity Funds in 2009 was attributable to our determination that we most likely would not participate in a specific future development project.

The reserve for notes receivable of \$1.7 million in 2009 related to the loss of an anchor tenant at the underlying collateral property.

- Discontinued operations	—	—	—	(1.5)	—	—	—	(6.3)

Equity in earnings (losses) of unconsolidated affiliates in the Opportunity Funds increased primarily as a result of an increase in distributions in excess of basis from our Albertson's investment of \$9.5 million in 2010 and an increase in our pro-rata share of income from Mervyns in 2010. Equity in earnings (losses) in the Self Storage Investments represents our pro-rata share of losses from our unconsolidated investment in the newly-formed self storage management company.

The \$3.8 million impairment of investment in unconsolidated affiliate during 2009 was the result of the reduction in value of the underlying property due to the recession and the related reduction in Fund I's carrying value of this investment including a partial guarantee of the mortgage debt.

The \$33.8 million gain from bargain purchase was attributable to Fund II's purchase of an unaffiliated membership interest in CityPoint as previously discussed.

The gain on debt extinguishment of \$7.1 million was attributable to the purchase of our convertible debt at a discount in 2009.

Total interest expense in the Core Portfolio decreased \$1.5 million in 2010. This was the result of a \$2.4 million decrease attributable to lower average outstanding borrowings in 2010 offset by a \$0.9 million increase attributable to higher average interest rates in 2010. Interest expense in the Opportunity Funds increased \$7.6 million in 2010. This was the result of an increase of \$2.9 million due to higher average interest rates in 2010, an increase of \$1.8 million due to higher average outstanding borrowings in 2010, an increase in amortization expense of \$2.6 million due to the write-off of deferred financing costs related to refinanced debt in 2010 and \$0.3 million of lower capitalized interest in 2010. Interest expense in the Self-Storage Investments decreased \$1.0 million in 2010. This was primarily attributable to a \$1.4 million decrease due to lower average interest rates in 2010. This decrease was

offset by \$0.3 million of lower capitalized interest in 2010 and an increase of \$0.2 million due to higher average outstanding borrowings in 2010.

The variance in the income tax expense in the Core Portfolio primarily related to income taxes at the TRS level for our pro-rata share of income from our Albertson's investment in 2010.

Income from discontinued operations represents activity related to a property held for sale in 2010 and property sales in 2009.

(Loss) income attributable to noncontrolling interests – Continuing operations and Discontinued operations primarily represents the noncontrolling interests' share of all the Opportunity Funds variances discussed above.

Notes:

- (1) Represents income attributable to Common OP Units and does not include distributions paid to Series A and B Preferred OP Unitholders.
- (2) We consider funds from operations ("FFO") as defined by the National Association of Real Estate Investment Trusts ("NAREIT") to be an appropriate supplemental disclosure of operating performance for an equity REIT due to its widespread acceptance and use within the REIT and analyst communities. FFO is presented to assist investors in analyzing our performance. It is helpful as it excludes various items included in net income that are not indicative of the operating performance, such as gains (losses) from sales of depreciated property and depreciation and amortization. However, our method of calculating FFO may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs. FFO does not represent cash generated from operations as defined by generally accepted accounting principles ("GAAP") and is not indicative of cash available to fund all cash needs, including distributions. It should not be considered as an alternative to net income for the purpose of evaluating our performance or to cash flows as a measure of liquidity. Consistent with the NAREIT definition, we define FFO as net income (computed in accordance with GAAP), excluding gains (losses) from sales of depreciated property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures.
- (3) This item represents our share of an extraordinary gain from our investment in Albertson's, which recorded an extraordinary gain in connection with the allocation of purchase price to assets acquired. We consider this to be a private-equity style investment in an operating businesses as opposed to real estate. Accordingly, all gains and losses from this investment are included in FFO, which we believe provides a more accurate reflection of our operating performance.

LIQUIDITY AND CAPITAL RESOURCES

Uses of Liquidity

Our principal uses of liquidity are (i) distributions to our shareholders and OP unit holders, (ii) investments which include the funding of our capital committed to the Opportunity Funds and property acquisitions and redevelopment/re-tenanting activities within our Core Portfolio, and (iii) debt service and loan repayments, including the repurchase of our Convertible Notes.

Distributions

In order to qualify as a REIT for Federal income tax purposes, we must currently distribute at least 90% of our taxable income to our shareholders. For the year ended December 31, 2011, we paid dividends and distributions on our Common Shares and Common OP Units totaling \$29.9 million.

Investments

Fund I and Mervyns I

Fund I and Mervyns I have returned all invested capital and accumulated preferred return thus triggering our Promote in all future Fund I and Mervyns I earnings and distributions. As of December 31, 2011, \$86.6 million has been invested in Fund I and Mervyns I, of which the Operating Partnership contributed \$19.2 million.

As of December 31, 2011, Fund I currently owned, or had ownership interests in four remaining assets comprising approximately 0.1 million square feet as further discussed in “—PROPERTY ACQUISITIONS” in Item 1. of this Form 10-K.

In addition, we, along with our Fund I investors have invested in Mervyns as discussed in Item 1. of this Form 10-K.

Fund II and Mervyns II

To date, Fund II’s primary investment focus has been in the New York Urban/Infill Redevelopment Initiative and the Retailer Controlled Property Venture. As of December 31, 2011, \$282.2 million has been invested in Fund II, of which the Operating Partnership contributed \$56.4 million. The remaining capital balance of \$17.8 million is expected to be utilized to complete development activities for existing Fund II investments.

Fund II has invested in the New York Urban/Infill Redevelopment and the RCP Venture initiatives and other investments. See “—PROPERTY ACQUISITIONS” in Item 1. of this Form 10-K for a table summarizing the New York Urban/Infill Redevelopment investments from inception through December 31, 2011.

RCP Venture

See “—PROPERTY ACQUISITIONS” in Item 1. of this Form 10-K for a table summarizing the RCP Venture investments from inception through December 31, 2011.

Fund III

During 2007, we formed Fund III with 14 institutional investors, including all of the investors from Fund I and a majority of the investors from Fund II with \$502.5 million of committed discretionary capital. As of December 31, 2011, \$226.8 million has been invested in Fund III, of which the Operating Partnership contributed \$45.1 million.

Fund III has invested in New York Urban/Infill Redevelopment Initiatives and other investments as further discussed in “—PROPERTY ACQUISITIONS” in Item 1. of this Form 10-K. The projects are as follows:

Property	Location	Year acquired	Costs to date	Anticipated additional costs (1)	Estimated construction completion	Square feet upon completion
Sheepshead Bay	Brooklyn, NY	2007	\$ 22.8	TBD	In design	TBD
125 Main Street	Westport, CT	2007	24.9	\$ 0.6	Construction complete	27,000
Total			<u>\$ 47.7</u>			

Notes:

TBD – To be determined

(1) Anticipated additional costs for completed property represents costs for tenant improvements.

Other Fund III Investments

Fund III currently owns, or had ownership interests in, the following 19 assets comprising approximately 2.3 million square feet as follows:

(dollars in millions)

Property	Location	Date Acquired	Purchase Price	GLA

Notes Receivable

As of December 31, 2011, our notes receivable, net aggregated \$60.0 million, with accrued interest thereon of \$2.5 million, and were collateralized by the underlying properties, the borrower's ownership interest in the entities that own the properties and/or by the borrower's personal guarantee. Effective interest rates on our notes receivable ranged from 6.0% to 24.0% with maturities through January 2017.

Investments made in notes receivable and preferred equity positions during 2011, 2010 and 2009 are discussed in "—NOTES RECEIVABLE, PREFERRED EQUITY AND OTHER REAL ESTATE RELATED INVESTMENTS" in Item 1. of this Form 10-K.

Other Investments

Acquisitions made during 2011, 2010 and 2009 are discussed in "—PROPERTY ACQUISITIONS" in Item 1. of this Form 10-K.

Core Portfolio Property Redevelopment and Re-anchoring

Our Core Portfolio redevelopment and re-anchoring programs focus on selecting well-located urban/street retail locations and suburban shopping centers and creating significant value through re-tenanting and property redevelopment. During 2011, we initiated the re-anchoring of three properties, the Bloomfield Town Square, located in Bloomfield Hills, MI and two former A&P supermarket locations located in the New York City metropolitan area. Re-anchoring costs for the Bloomfield Town Center totaled \$1.6 million as of December 31, 2011 with total re-anchoring costs expected to be approximately \$7.0 million. Re-anchoring costs associated with the two former A&P supermarket locations are estimated to range between \$4.0 million and \$8.0 million.

Purchase of Convertible Notes

Purchases of the Convertible Notes have been another use of our liquidity although as of December 31, 2011 all but \$0.9 million of the Convertible Notes have been retired. During 2011, we purchased \$48.8 million in face amount of our outstanding Convertible Notes for \$49.0 million. During 2009, we purchased \$57.0 million in face amount of our outstanding Convertible Notes for \$46.7 million.

Share Repurchase

We have an existing share repurchase program that authorizes management, at its discretion, to repurchase up to \$20.0 million of our outstanding Common Shares. The program may be discontinued or extended at any time and there is no assurance that we will purchase the full amount authorized. Under this program we have repurchased 2.1 million Common Shares, none of which were repurchased after December 2001. As of December 31, 2011, management may repurchase up to approximately \$7.5 million of our outstanding Common Shares under this program.

SOURCES OF LIQUIDITY

We intend on using Fund III, as well as new opportunity funds that we may establish in the future, as the primary vehicles for our future acquisitions. Fund III has \$220.8 million of unfunded capital commitments as of December 31, 2011. Additional sources of capital for funding property acquisitions, redevelopment, expansion and re-tenanting are expected to be obtained primarily from (i) the issuance of public equity or debt instruments, (ii) cash on hand and cash flow from operating activities, (iii) additional debt financings, (iv) noncontrolling interests' unfunded capital commitments of \$14.2 million for Fund II and (v) future sales of existing properties.

During 2011, Fund II received capital contributions of \$17.0 million to fund development costs. During 2011, Fund III received capital contributions of \$46.5 million to fund acquisitions and to pay down a portion of Fund III's credit facility.

As of December 31, 2011, we had cash and cash equivalents on hand of \$89.8 million and \$73.1 million of additional capacity under existing debt facilities.

Shelf Registration Statements and Issuance of Equity

During April 2009, we filed a shelf registration on Form S-3 providing for offerings of up to a total of \$500.0 million of Common Shares, Preferred Shares and debt securities. We currently have remaining capacity under this registration statement to issue up to approximately \$311 million of these securities. This shelf registration statement expires in April 2012 and we intend to replace it with a new shelf registration on Form S-3.

During November 2011, we issued 2.25 million Common Shares, which generated net proceeds of approximately \$45.0 million.

In addition, during January 2012, we established an ATM equity program with an aggregate offering of up to \$75.0 million in Common Shares. We intend to use the net proceeds of these offerings for general corporate purposes, which may include, among other things, repayment of our debt, future acquisitions, directly and through our Opportunity Funds, and redevelopments of and capital improvements to our properties.

During April 2009, we issued 5.75 million Common Shares and generated net proceeds of approximately \$65.0 million. The proceeds were primarily used to purchase a portion of our outstanding convertible notes payable and pay down existing lines of credit.

Asset Sales

Asset sales are an additional source of liquidity for us. During the years ended December 31, 2011, 2010 and 2009, we disposed of the following properties:

(dollars in millions) Property	Year Sold	Sales Price	Gain (Loss)	Operating Partnership Share of Gain (Loss)	GLA
Fifteen Kroger/Safeway locations	2011	\$ 17.5	\$ 14.6	\$ 2.4	617,276
Granville Centre	2011	2.3	(0.3)	(0.1)	134,997
Ledgewood Mall	2011	37.0	28.6	28.6	517,151
Oakbrook	2011	8.2	3.9	0.8	112,000

Six Kroger locations	2009	9.5	5.6	0.9	277,700
Total		\$ 77.0	\$ 53.9	\$ 34.1	1,784,388

These sales are discussed in "—ASSET SALES AND CAPITAL/ASSET RECYCLING" in Item 1. of this Form 10-K.

Notes Receivable and Preferred Equity Repayments

Reference is made to Note 5 in our Consolidated Financial Statements, which begin on Page F-1 of this Form 10-K, for an overview of our notes receivable and preferred equity investments and for payments received during the years ended December 31, 2011, 2010 and 2009.

Financing and Debt

As of December 31, 2011, our outstanding mortgage and convertible notes payable aggregated \$788.8 million, and were collateralized by 29 properties and related tenant leases. Interest rates on our outstanding indebtedness ranged from 1.55% to 7.34% with maturities that ranged from September 2012 to November 2032. Taking into consideration \$57.0 million of notional principal under variable to fixed-rate swap agreements currently in effect, \$300.2 million of the portfolio, or 38%, was fixed at a 5.8% weighted average interest rate and \$488.6 million, or 62% was floating at a 3.7% weighted average interest rate as of December 31, 2011. There is \$298.3 million of debt maturing in 2012 at weighted average interest rates of 4.0%. Of this amount, \$2.8 million represents scheduled annual amortization. The loans relating to \$56.5 million of the 2012 maturities provide for extension options, which we believe we will be able to exercise. As it relates to the remaining 2012 maturities, we may not have sufficient cash on hand to repay such indebtedness and, as such, we may have to refinance this indebtedness or select other alternatives based on market conditions at that time.

The following table sets forth certain information pertaining to our secured credit facilities:

(dollars in millions) Borrower	Total available credit facilities	Amount borrowed as of December 31, 2010	2011 net borrowings (repayments) during the year ended December 31, 2011	Amount borrowed as of December 31, 2011	Letters of credit outstanding as of December 31, 2011	Amount available under credit facilities as of December 31, 2011

Reference is made to Note 8 and Note 9 to our Consolidated Financial Statements, which begin on Page F-1 of this Form 10-K, for a summary of the financing and refinancing transactions during the year ended December 31, 2011.

CONTRACTUAL OBLIGATIONS AND OTHER COMMITMENTS

At December 31, 2011, maturities on our mortgage notes ranged from September 2012 to November 2032. In addition, we have non-cancelable ground leases at nine of our shopping centers. We lease space for our White Plains corporate office for a term expiring in 2015. The following table summarizes our debt maturities, obligations under non-cancelable operating leases and construction commitments as of December 31, 2011:

Contractual obligations:	Total	Payments due by period			
		Less than 1 year	1 to 3 years	3 to 5 years	More than 5 years
(dollars in millions)					
Future debt maturities	\$ 788.8	\$ 298.4	\$ 232.7	\$ 154.4	\$ 103.3
Interest obligations on debt	103.4	32.2	38.6	21.9	10.7
Operating lease obligations	162.6	5.1	10.2	9.1	138.2
Construction commitments (1)	22.9	22.9	—	—	—
Total	\$ 1,077.7	\$ 358.6	\$ 281.5	\$ 185.4	\$ 252.2

Notes:

(1) In conjunction with the redevelopment of our Core Portfolio and Opportunity Fund properties, we have entered into construction commitments with general contractors. We intend to fund these requirements with existing liquidity.

OFF BALANCE SHEET ARRANGEMENTS

We have investments in the following joint ventures for the purpose of investing in operating properties. We account for these investments using the equity method of accounting. As such, our financial statements reflect our share of income and loss from but not the individual assets and liabilities of these joint ventures.

Reference is made to Note 4 to our Consolidated Financial Statements, which begin on page F-1 of this Form 10-K, for a discussion of our unconsolidated investments. Our pro-rata share of unconsolidated debt related to those investments is as follows:

(dollars in millions)

Investment	Pro-rata share of mortgage debt Operating Partnership	Interest rate at December 31, 2011	Maturity date
Crossroads	\$ 29.6	5.37%	December, 2014
Brandywine	36.9	5.99%	July, 2016
White City	6.6	2.90%	December, 2017
Lincoln Road	3.8	6.14%	August, 2014
Georgetown Portfolio	5.1	5.12%	October 2012 - May 2021
Perring Parkway	2.5	2.50%	January, 2015
Total	<u>\$ 84.5</u>		

In addition, we have arranged for the provision of one separate letter of credit in connection with certain leases and investments. As of December 31, 2011, there was no outstanding balance under the letter of credit. If the letter of credit were fully drawn, the maximum amount of our exposure would be \$4.6 million.

In addition to our derivative financial instruments, one of our unconsolidated affiliates is a party to two separate interest rate LIBOR swaps with a notional value of \$29.6 million, which effectively fix the interest rate at 5.54% and expire in December 2017. Our pro-rata share of the fair value of the derivative liabilities totaled \$0.4 million at December 31, 2011.

HISTORICAL CASH FLOW

The following table compares the historical cash flow for the year ended December 31, 2011 ("2011") with the cash flow for the year ended December 31, 2010 ("2010").

(dollars in millions)	Years Ended December 31,		
	2011	2010	Variance
Net cash provided by operating activities	\$ 66.3	\$ 44.4	\$ 21.9
Net cash used in investing activities	(153.2)	(60.7)	(92.5)
Net cash provided by financing activities	56.1	43.1	13.0
Total	<u>\$ (30.8)</u>	<u>\$ 26.8</u>	<u>\$ (57.6)</u>

A discussion of the significant changes in cash flow for 2011 versus 2010 is as follows:

The increase of \$21.9 million in net cash provided by operating activities was primarily attributable to the following:

Items which contributed to an increase in cash from operating activities:

- Additional rents from Opportunity Fund redevelopment projects as well as Core Portfolio and Opportunity Fund acquisitions
- Additional cash used during 2010 to fund an escrow account with the proceeds from the CityPoint bond financing

Items which contributed to a decrease in cash from operating activities:

- A decrease in distributions related to our RCP investment in Albertson's during 2010

The increase of \$92.5 million of net cash used in investing activities primarily resulted from the following:

Items which contributed to an increase in cash used in investing activities:

- An increase of \$103.4 million in expenditures for real estate, development and tenant installations during 2011
- An increase of \$35.9 million in investments and advances to unconsolidated affiliates during 2011 related to the acquisitions of Lincoln Road, White Oak, Georgetown, and Perring Parkway
- An increase of \$34.3 million in advances of notes receivable during 2011

Items which contributed to a decrease in cash used in investing activities:

- An increase of \$62.9 million in proceeds from the sale of properties during 2011
- An increase of \$14.5 million from the collection of notes receivable during 2011

The \$13.0 million increase in net cash provided by financing activities resulted primarily from the following:

Items which contributed to an increase in cash from financing activities:

- An additional \$84.4 million in contributions from noncontrolling interests during 2011
- An increase of \$44.7 million in cash from the issuance of Common Shares, net of costs during 2011

Items which contributed to a decrease in cash from financing activities:

- \$48.8 million in repurchases of convertible notes during 2011
- An increase of \$33.6 million in debt repayments during 2011
- A decrease of \$30.8 million in borrowings during 2011

CRITICAL ACCOUNTING POLICIES

Management's discussion and analysis of financial condition and results of operations is based upon our Consolidated Financial Statements, which have been prepared in accordance with U.S. GAAP. The preparation of these Consolidated Financial Statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. We base our estimates on historical experience and assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect the significant judgments and estimates used by us in the preparation of our Consolidated Financial Statements.

Valuation of Property Held for Use and Sale

On a quarterly basis, we review the carrying value of both properties held for use and for sale. We perform an impairment analysis by calculating and reviewing net operating income on a property-by-property basis. We evaluate leasing projections and perform other analyses to conclude whether an asset is impaired. We record impairment losses and reduce the carrying value of properties when indicators of impairment are present and the expected undiscounted cash flows related to those properties are less than their carrying amounts. In cases where we do not expect to recover our carrying costs on properties held for use, we reduce our carrying cost to fair value. For properties held for sale, we reduce our carrying value to the fair value less costs to sell. During the year ended December 31, 2011, we determined that the value of the Granville Centre owned by Fund I was impaired. Accordingly, we recorded an impairment loss of \$6.9 million. For the years ended December 31, 2010 and 2009, no impairment losses on our properties were recognized. Management does not believe that the value of any properties in its portfolio was impaired as of December 31, 2011.

Investments in and Advances to Unconsolidated Joint Ventures

We periodically review our investment in unconsolidated joint ventures for other than temporary declines in market value. Any decline that is not expected to be recovered in the next twelve months is considered other than temporary and an impairment charge is recorded as a reduction in the carrying value of the investment. During the year ended December 31, 2009, we recorded a \$3.8 million impairment reserve related to a Fund I unconsolidated joint venture. No impairment charges related to our investment in unconsolidated joint ventures were recognized for the years ended December 31, 2011 and 2010.

Bad Debts

We maintain an allowance for doubtful accounts for estimated losses resulting from the inability of tenants to make payments on arrearages in billed rents, as well as the likelihood that tenants will not have the ability to make payments on unbilled rents including estimated expense recoveries. We also maintain a reserve for straight-line rent receivables. For the years ended December 31, 2011 and 2010, the allowance for doubtful accounts totaled \$5.3 million and \$7.5 million, respectively. If the financial condition

of our tenants were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

Real Estate

Real estate assets are stated at cost less accumulated depreciation. Expenditures for acquisition, development, construction and improvement of properties, as well as significant renovations are capitalized. Interest costs are capitalized until construction is substantially complete. Construction in progress includes costs for significant property expansion and redevelopment. Depreciation is computed on the straight-line basis over estimated useful lives of 30 to 40 years for buildings, the shorter of the useful life or lease term for tenant improvements and five years for furniture, fixtures and equipment. Expenditures for maintenance and repairs are charged to operations as incurred.

Upon acquisitions of real estate, we assess the fair value of acquired assets (including land, buildings and improvements, and identified intangibles such as above and below market leases and acquired in-place leases and customer relationships) and acquired liabilities in accordance with the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 805 “Business Combinations” and ASC Topic 350 “Intangibles – Goodwill and Other,” and allocate purchase price based on these assessments. We assess fair value based on estimated cash flow projections that utilize appropriate discount and capitalization rates and available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known trends, and market/economic conditions that may affect the property.

Involuntary Conversion of Asset

We experienced significant flooding resulting in extensive damage to one of its properties during September 2011. Costs related to the clean-up and redevelopment are insured to a limit sufficient that we believe will allow for full restoration of the property. Loss of rents during the redevelopment are covered by business interruption insurance subject to a \$0.1 million deductible. We plan to restore the improvements that were damaged by the flooding and expects that the costs of such restoration and rebuilding will be recoverable from insurance proceeds. In accordance with ASC Topic 360 “Property, Plant and Equipment” and as a result of the above-described property damage, we have recorded a write-down of the asset’s carrying value in the accompanying consolidated balance sheet of approximately \$1.4 million. In addition, we have recorded an insurance recovery in the same amount that is included in Prepaid Expenses and Other Assets in the accompanying consolidated balance sheet as of December 31, 2011. We have also provided a \$0.1 million provision in the consolidated statement of income for its exposure to the insurance deductible attributable to the loss of rents. As of December 31, 2011, we have received initial insurance proceeds of approximately \$6.9 million.

Revenue Recognition and Accounts Receivable

Leases with tenants are accounted for as operating leases. Minimum rents are recognized on a straight-line basis over the term of the respective leases, beginning when the tenant takes possession of the space. Certain of these leases also provide for percentage rents based upon the level of sales achieved by the tenant. Percentage rent is recognized in the period when the tenants’ sales breakpoint is met. In addition, leases typically provide for the reimbursement to us of real estate taxes, insurance and other property operating expenses. These reimbursements are recognized as revenue in the period the expenses are incurred.

We make estimates of the uncollectability of our accounts receivable related to tenant revenues. An allowance for doubtful accounts has been provided against certain tenant accounts receivable that are estimated to be uncollectible. See “Bad Debts” above. Once the amount is ultimately deemed to be uncollectible, it is written off.

Notes Receivable and Preferred Equity Investment

Real estate notes receivable and preferred equity investments are intended to be held to maturity and are carried at cost. Interest income from notes receivable and preferred equity investments are recognized on the effective interest method over the expected life of the loan. Under the effective interest method, interest or fees to be collected at the origination of the loan or the payoff of the loan is recognized over the term of the loan as an adjustment to yield.

Allowances for real estate notes receivable and preferred equity investments are established based upon management’s quarterly review of the investments. In performing this review, management considers the estimated net recoverable value of the loan as well as other factors, including the fair value of any collateral, the amount and status of any senior debt, and the prospects for the borrower. Because this determination is based upon projections of future economic events, which are inherently subjective, the amounts ultimately realized from the loans may differ materially from the carrying value at the balance sheet date. Interest income recognition is generally suspended for loans when, in the opinion of management, a full recovery of income and principal becomes doubtful. Income recognition is resumed when the suspended loan becomes contractually current and performance is demonstrated to be resumed.

During 2009, we provided a \$1.7 million reserve on a note receivable as a result of the loss of an anchor tenant at the underlying

collateral property.

INFLATION

Our long-term leases contain provisions designed to mitigate the adverse impact of inflation on our net income. Such provisions include clauses enabling us to receive percentage rents based on tenants' gross sales, which generally increase as prices rise, and/or, in certain cases, escalation clauses, which generally increase rental rates during the terms of the leases. Such escalation clauses are often related to increases in the consumer price index or similar inflation indexes. In addition, many of our leases are for terms of less than ten years, which permits us to seek to increase rents upon re-rental at market rates if current rents are below the then existing market rates. Most of our leases require the tenants to pay their share of operating expenses, including common area maintenance, real estate taxes, insurance and utilities, thereby reducing our exposure to increases in costs and operating expenses resulting from inflation.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Information as of December 31, 2011

Our primary market risk exposure is to changes in interest rates related to our mortgage debt. See Note 8 to our Consolidated Financial Statements, which begin on page F-1 of this Form 10-K, for certain quantitative details related to our mortgage debt.

Currently, we manage our exposure to fluctuations in interest rates primarily through the use of fixed-rate debt and interest rate swap agreements. As of December 31, 2011, we had total mortgage and convertible notes payable of \$788.8 million of which \$300.2 million, or 38% was fixed-rate, inclusive of debt with rates fixed through the use of derivative financial instruments, and \$488.6 million, or 62%, was variable-rate based upon LIBOR rates plus certain spreads. As of December 31, 2011, we were a party to five interest rate swap transactions and three interest rate caps transaction to hedge our exposure to changes in interest rates with respect to \$57.0 million and \$75.0 million of LIBOR-based variable-rate debt, respectively. We were also a party to one forward interest rate swap transaction with respect to \$12.5 million of LIBOR-based variable-rate debt.

The following table sets forth information as of December 31, 2011 concerning our long-term debt obligations, including principal cash flows by scheduled maturity and weighted average interest rates of maturing amounts (dollars in millions):

Consolidated mortgage debt:

Year	Scheduled amortization	Maturities	Total	Weighted average interest rate
2012	\$ 2.8	\$ 295.5	\$ 298.3	4.0%
2013	3.6	124.5	128.1	4.2%
2014	2.8	101.9	104.7	4.3%
2015	2.4	77.3	79.7	3.2%
2016	1.2	73.5	74.7	5.6%
Thereafter	6.9	96.4	103.3	5.4%
	<u>\$ 19.7</u>	<u>\$ 769.1</u>	<u>\$ 788.8</u>	

Mortgage debt in unconsolidated partnerships (at our pro-rata share):

Year	Scheduled amortization	Maturities	Total	Weighted average interest rate
2012	\$ 0.7	\$ —	\$ 0.7	n/a
2013	0.7	1.1	1.8	6.0%
2014	0.7	31.6	32.3	5.5%
2015	0.1	—	0.1	n/a
2016	0.1	—	0.1	n/a
Thereafter	0.1	42.9	43.0	5.6%
	<u>\$ 2.4</u>	<u>\$ 75.6</u>	<u>\$ 78.0</u>	

\$298.3 million of our total consolidated debt and \$0.7 million of our pro-rata share of unconsolidated outstanding debt will become due in 2012. \$128.1 million of our total consolidated debt and \$1.8 million of our pro-rata share of unconsolidated debt will become due in 2013. As we intend on refinancing some or all of such debt at the then-existing market interest rates, which may be greater than the current interest rate, our interest expense would increase by approximately \$4.3 million annually if the interest rate on the refinanced debt increased by 100 basis points. After giving effect to noncontrolling interests, our share of this increase would be \$0.9 million. Interest expense on our variable debt of \$488.6 million, net of variable to fixed-rate swap agreements currently in effect, as of December 31, 2011 would increase \$4.9 million if LIBOR increased by 100 basis points. After giving effect to noncontrolling interests, our share of this increase would be \$0.7 million. We may seek additional variable-rate financing if and when pricing and other commercial and financial terms warrant. As such, we would consider hedging against the interest rate risk related to such additional variable-rate debt through interest rate swaps and protection agreements, or other means.

Based on our outstanding debt balances as of December 31, 2011, the fair value of our total consolidated outstanding debt would decrease by approximately \$11.1 million if interest rates increase by 1%. Conversely, if interest rates decrease by 1%, the fair value of our total outstanding debt would increase by approximately \$13.2 million.

As of December 31, 2011 and 2010, we had notes receivable and preferred equity investments of \$60.0 million and \$89.2 million, respectively. We determined the estimated fair value of our notes receivable and preferred equity investments as of December 31, 2011 and 2010 were \$60.0 million and \$90.6 million, respectively, by discounting future cash receipts utilizing a discount rate equivalent to the rate at which similar notes receivable would be originated under conditions then existing.

Based on our outstanding notes receivable and preferred equity investments balances as of December 31, 2011, the fair value of our total outstanding notes receivable and preferred equity investments would decrease by approximately \$0.2 million if interest rates increase by 1%. Conversely, if interest rates decrease by 1%, the fair value of our total outstanding notes receivable and preferred equity investments would increase by approximately \$0.2 million.

Summarized Information as of December 31, 2010

As of December 31, 2010, we had total mortgage and convertible notes payable of \$854.9 million of which \$415.0 million, or 49% was fixed-rate, inclusive of interest rate swaps, and \$439.9 million, or 51%, was variable-rate based upon LIBOR plus certain spreads. As of December 31, 2010, we were a party to seven interest rate swap transactions and one interest rate cap transaction to hedge our exposure to changes in interest rates with respect to \$71.5 million and \$28.9 million of LIBOR-based variable-rate debt, respectively.

Interest expense on our variable debt of \$439.9 million as of December 31, 2010 would have increased \$4.4 million if LIBOR increased by 100 basis points. Based on our outstanding debt balances as of December 31, 2010, the fair value of our total outstanding debt would have decreased by approximately \$12.6 million if interest rates increased by 1%. Conversely, if interest rates decreased by 1%, the fair value of our total outstanding debt would have increased by approximately \$13.8 million.

Changes in Market Risk Exposures from 2011 to 2010

Our interest rate risk exposure from December 31, 2010 to December 31, 2011 has increased, as we had \$439.9 million in variable-rate debt (or 51% of our total debt) at December 31, 2010, as compared to \$488.6 million (or 62% of our total debt) in variable-rate debt at December 31, 2011.

ITEM 9A. CONTROLS AND PROCEDURES.

(i) Disclosure Controls and Procedures

We conducted an evaluation, under the supervision and with the participation of management including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of December 31, 2011 to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

(ii) Internal Control Over Financial Reporting

(a) Management's Annual Report on Internal Control Over Financial Reporting

Management of Acadia Realty Trust is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in the Securities Exchange Act of 1934 Rule 13(a)-15(f). Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting as of December 31, 2011 as required by the Securities Exchange Act of 1934 Rule 13(a)-15(c). In making this assessment, we used the criteria set forth in the framework in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the "COSO criteria"). Based on our evaluation under the COSO criteria, our management concluded that our internal control over financial reporting was effective as of December 31, 2011 to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with U.S. generally accepted accounting principles.

BDO USA, LLP, an independent registered public accounting firm that audited our Financial Statements included in this Annual Report, has issued an attestation report on our internal control over financial reporting as of December 31, 2011, which appears in paragraph (b) of this Item 9A.

Acadia Realty Trust

(b) Attestation report of the independent registered public accounting firm

The Shareholders and Trustees of
Acadia Realty Trust

We have audited Acadia Realty Trust and subsidiaries' internal control over financial reporting as of December 31, 2011, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the "COSO criteria"). Acadia Realty Trust and subsidiaries' management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on a company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control, based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain

to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Acadia Realty Trust and subsidiaries maintained in all material respects effective internal control over financial reporting as of December 31, 2011, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Acadia Realty Trust and subsidiaries as of December 31, 2011 and 2010 and the related consolidated statements of income, comprehensive income, shareholders' equity and cash flows for each of the three years in the period ended December 31, 2011 and our report dated February 28, 2012 expressed an unqualified opinion thereon.

/s/ BDO USA, LLP
New York, New York
February 28, 2012

(c) Changes in internal control over financial reporting

There was no change in our internal control over financial reporting during our fourth fiscal quarter ended December 31, 2011 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

The Shareholders and Trustees of
Acadia Realty Trust

We have audited the accompanying consolidated balance sheets of Acadia Realty Trust and subsidiaries (the “Company”) as of December 31, 2011 and 2010 and the related consolidated statements of income, comprehensive income, shareholders’ equity and cash flows for each of the three years in the period ended December 31, 2011. In connection with our audits of the financial statements we have also audited the accompanying financial statement schedule listed on page F-1. These financial statements and schedule are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and schedule. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Acadia Realty Trust and subsidiaries at December 31, 2011, and 2010 and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2011, in conformity with generally accepted accounting principles in the United States of America.

Also, in our opinion, the financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Acadia Realty Trust and subsidiaries’ internal control over financial reporting as of December 31, 2011, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and our report dated February 28, 2012 expressed an unqualified opinion thereon.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Organization, Basis of Presentation and Summary of Significant Accounting Policies

Acadia Realty Trust (the “Trust”) and subsidiaries (collectively, the “Company”), is a fully-integrated equity real estate investment trust (“REIT”) focused on the ownership, management and redevelopment of retail properties and urban/infill mixed-use properties with a retail component located primarily in high-barrier-to-entry, densely-populated metropolitan areas in the United States along the East Coast and in Chicago.

As of December 31, 2011, the Company operated 82 properties, which it owns or has an ownership interest in, within its Core Portfolio or within the three opportunity funds (Fund I, Fund II and Fund III (defined below), which the Company refers to as the “Opportunity Funds”). The Company defines its Core Portfolio as those properties either 100% owned by, or partially owned through joint venture interests by, the Operating Partnership (defined below), or subsidiaries thereof, not including those properties owned through its Opportunity Funds.

All of the Company’s assets are held by, and all of its operations are conducted through, Acadia Realty Limited Partnership (the “Operating Partnership”) and entities in which the Operating Partnership owns a controlling interest. As of December 31, 2011, the Trust controlled 99% of the Operating Partnership as the sole general partner. As the general partner, the Trust is entitled to share, in proportion to its percentage interest, in the cash distributions and profits and losses of the Operating Partnership. The limited partners primarily represent entities or individuals that contributed their interests in certain properties or entities to the Operating Partnership in exchange for common or preferred units of limited partnership interest (“Common OP Units” or “Preferred OP Units”) and employees who have been awarded restricted Common OP Units (“LTIP Units”) as long-term incentive compensation (Note 15). Limited partners holding Common OP Units are generally entitled to exchange their units on a one-for-one basis for common shares of beneficial interest of the Trust (“Common Shares”). This structure is referred to as an umbrella partnership REIT or “UPREIT.”

The Company formed Acadia Strategic Opportunity Fund I, LP (“Fund I”), and formed Acadia Mervyn Investors I, LLC (“Mervyns I”), with four institutional investors. The Operating Partnership committed a total of \$20.0 million to Fund I and Mervyns I, and the four institutional shareholders committed a total of \$70.0 million for the purpose of acquiring real estate investments. As of December 31, 2011, Fund I was fully invested, with the Operating Partnership having contributed \$16.5 million to Fund I and \$2.7 million to Mervyns I.

The Operating Partnership is the general partner of Fund I and sole managing member of Mervyns I, with a 22.2% interest in both Fund I and Mervyns I and is also entitled to a profit participation in excess of its invested capital based on certain investment return thresholds (“Promote”). Cash flow is distributed pro-rata to the partners and members (including the Operating Partnership) until they receive a 9% cumulative return (“Preferred Return”), and the return of all capital contributions. Thereafter, remaining cash flow (which is net of distributions and fees to the Operating Partnership for management, asset management, leasing, construction and legal services) is distributed 20% to the Operating Partnership as a Promote and 80% to the partners (including the Operating Partnership). As all contributed capital and accumulated preferred return has been distributed to investors, the Operating Partnership is currently entitled to a Promote on all earnings and distributions.

The Company formed Acadia Strategic Opportunity Fund II, LLC (“Fund II”) and formed Acadia Mervyn Investors II, LLC (“Mervyns II”) with the investors from Fund I, as well as two additional institutional investors, with a total of \$300.0 million of committed discretionary capital. The Operating Partnership’s share of committed capital is \$60.0 million. The Operating Partnership is the managing member with a 20% interest in both Fund II and Mervyns II. The terms and structure of Fund II and Mervyns II are substantially the same as Fund I and Mervyns I, including the Promote structure, with the exception that the Preferred Return is 8%. As of December 31, 2011, the Operating Partnership had contributed \$48.8 million to Fund II and \$7.6 million to Mervyns II.

The Company formed Acadia Strategic Opportunity Fund III LLC (“Fund III”) with fourteen institutional investors, including a majority of the investors from Fund I and Fund II, with a total of \$502.5 million of committed discretionary capital. The Operating Partnership’s share of the invested capital is \$100.0 million and it is the managing member with a 19.9% interest in Fund III. The terms and structure of Fund III are substantially the same as the previous Funds I and II, including the Promote structure, with the exception that the Preferred Return is 6%. As of December 31, 2011, the Operating Partnership had contributed \$45.1 million to Fund III.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Organization, Basis of Presentation and Summary of Significant Accounting Policies, continued

Principles of Consolidation

The consolidated financial statements include the consolidated accounts of the Company and its controlling investments in partnerships and limited liability companies in which the Company has control in accordance Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 810 “Consolidation” (“ASC Topic 810”). The ownership interests of other investors in these entities are recorded as noncontrolling interests. All significant intercompany balances and transactions have been eliminated in consolidation. Investments in entities for which the Company has the ability to exercise significant influence over, but does not have financial or operating control, are accounted for using the equity method of accounting. Accordingly, the Company’s share of the earnings (or losses) of these entities are included in consolidated net income.

Variable interest entities are accounted for within the scope of ASC Topic 810 and are required to be consolidated by their primary beneficiary. The primary beneficiary of a variable interest entity is the enterprise that has the power to direct the activities that most significantly impact the variable interest entity’s economic performance and the obligation to absorb losses or the right to receive benefits of the variable interest entity that could be significant to the variable interest entity. Management has evaluated the applicability of ASC Topic 810 to its investments in certain joint ventures and determined that these joint ventures are not variable interest entities or that the Company is not the primary beneficiary and, therefore, consolidation of these ventures is not required. These investments are accounted for using the equity method of accounting.

Investments in and Advances to Unconsolidated Joint Ventures

The Company accounts for its investments in unconsolidated joint ventures using the equity method as it does not exercise control over significant asset decisions such as buying, selling or financing nor is it the primary beneficiary under ASC Topic 810, as discussed above. The Company does have significant influence over the investments which requires equity method accounting. Under the equity method, the Company increases its investment for its proportionate share of net income and contributions to the joint venture and decreases its investment balance by recording its proportionate share of net loss and distributions. The Company recognizes income for distributions in excess of its investment where there is no recourse to the Company. For investments in which there is recourse to the Company, distributions in excess of the investment are recorded as a liability. Although the Company accounts for its investment in Albertson’s (Note 4) under the equity method of accounting, the Company adopted the policy of not recording its equity in earnings or losses of this unconsolidated affiliate until it receives the audited financial statements of Albertson’s to support the equity earnings or losses in accordance with ASC Topic 323, “Investments – Equity Method and Joint Ventures.”

The Company periodically reviews its investment in unconsolidated joint ventures for other-than-temporary losses in investment value. Any decline that is not expected to be recovered is considered other than temporary and an impairment charge is recorded as a reduction in the carrying value of the investment. During the years ended December 31, 2011 and 2010, there were no impairment charges related to the Company’s investment in unconsolidated joint ventures. During the year ended December 31, 2009, the Company recorded an impairment charge of \$3.8 million related to its investment in unconsolidated joint ventures.

Use of Estimates

Accounting principles generally accepted in the United States of America (“GAAP”) require the Company’s management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The most significant assumptions and estimates relate to the valuation of real estate, depreciable lives, revenue recognition and the collectability of notes receivable and rents receivable. Application of these estimates and assumptions requires the exercise of judgment as to future uncertainties and, as a result, actual results could differ from these estimates.

Real Estate

Real estate assets are stated at cost less accumulated depreciation. Expenditures for acquisition, development, construction and improvement of properties, as well as significant renovations are capitalized. Interest costs are capitalized until construction is substantially complete and the real estate is ready for its intended use. Construction in progress includes costs for significant property expansion and redevelopment. Depreciation is computed on the straight-line basis over estimated useful lives of 30 to 40 years for buildings, the shorter of the useful life or lease term for tenant improvements and five years for furniture, fixtures and equipment. Expenditures for maintenance and repairs are charged to operations as incurred.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Organization, Basis of Presentation and Summary of Significant Accounting Policies, continued

Real Estate, continued

Upon acquisitions of real estate, the Company assesses the fair value of acquired assets (including land, buildings and improvements, and identified intangibles such as above and below market leases and acquired in-place leases and customer relationships) and acquired liabilities in accordance with ASC Topic 805 "Business Combinations" and ASC Topic 350 "Intangibles – Goodwill and Other," and allocates the acquisition price based on these assessments. Fixed-rate renewal options have been included in the calculation of the fair value of acquired leases where applicable. To the extent there were fixed-rate options at below-market rental rates, the Company included these along with the current term below-market rent in arriving at the fair value of the acquired leases. The discounted difference between contract and market rents is being amortized over the remaining applicable lease term, inclusive of any option periods. The Company assesses fair value based on estimated cash flow projections that utilize appropriate discount and capitalization rates and available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known trends, and market/economic conditions that may affect the property.

The Company reviews its long-lived assets used in operations for impairment when there is an event or a change in circumstances that indicates that the carrying amount may not be recoverable. The Company measures and records impairment losses and reduces the carrying value of properties when indicators of impairment are present and the expected undiscounted cash flows related to those properties are less than their carrying amounts. In cases where the Company does not expect to recover its carrying costs on properties held for use, the Company reduces its carrying costs to fair value, and for properties held for sale, the Company reduces its carrying value to the fair value less costs to sell. During the year ended December 31, 2011, the Company determined that the value of the Granville Centre owned by Fund I was impaired. Accordingly, an impairment loss of \$6.9 million was recorded, of which the Operating Partnership's share was \$1.5 million. During the years ended December 31, 2010, and 2009, no impairment losses were recognized. Management does not believe that the values of its properties within the portfolio are impaired as of December 31, 2011.

Sale of Real Estate

The Company recognizes property sales in accordance with ASC Topic 970 "Real Estate." The Company generally records the sales of operating properties and outparcels using the full accrual method at closing when the earnings process is deemed to be complete. Sales not qualifying for full recognition at the time of sale are accounted for under other appropriate deferral methods.

Real Estate Held for Sale

The Company evaluates the held-for-sale classification of its real estate each quarter. Assets that are classified as held for sale are recorded at the lower of their carrying amount or fair value less cost to sell. Assets are generally classified as held for sale once management has initiated an active program to market them for sale and has received a firm purchase commitment. The results of operations of these real estate properties are reflected as discontinued operations in all periods presented.

On occasion, the Company will receive unsolicited offers from third parties to buy individual Company properties. Under these circumstances, the Company will classify the properties as held for sale when a sales contract is executed with no contingencies and the prospective buyer has funds at risk to ensure performance.

Involuntary Conversion of Asset

The Company experienced significant flooding that resulted in extensive damage to one of its properties during September 2011. Costs related to the clean-up and redevelopment are insured to a limit sufficient that the Company believes will allow for full restoration of the property. Loss of rents during the redevelopment are covered by business interruption insurance subject to a \$0.1 million deductible. The Company plans to restore the improvements that were damaged by the flooding and expects that the costs of such restoration and rebuilding will be recoverable from insurance proceeds. In accordance with ASC Topic 360 "Property, Plant and Equipment" and as a result of the above-described property damage, the Company has recorded a write-down of the asset's carrying value in the accompanying 2011 consolidated balance sheets of approximately \$1.4 million as of December 31, 2011. In addition, the Company has recorded an insurance recovery in the same amount that is included in Prepaid Expenses and Other Assets in the accompanying 2011 consolidated balance sheets. The Company has also provided a \$0.1 million provision in the 2011 consolidated statement of income for its exposure to the insurance deductible attributable to the loss of rents. As of December 31, 2011, the Company has received initial insurance proceeds of approximately \$6.9 million.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Organization, Basis of Presentation and Summary of Significant Accounting Policies, continued

Deferred Costs

Fees and costs paid in the successful negotiation of leases are deferred and amortized on a straight-line basis over the terms of the respective leases. Fees and costs incurred in connection with obtaining financing are deferred and amortized over the term of the related debt obligation.

Management Contracts

Income from management contracts is recognized on an accrual basis as such fees are earned. The initial acquisition cost of any management contracts are amortized over the estimated lives of the contracts acquired.

Revenue Recognition and Accounts Receivable

Leases with tenants are accounted for as operating leases. Minimum rents are recognized on a straight-line basis over the term of the respective leases, beginning when the tenant is entitled to take possession of the space. As of December 31, 2011 and 2010, included in Rents Receivable, Net on the accompanying consolidated balance sheets, are unbilled rents receivable relating to straight-lining of rents of \$22.8 million and \$16.9 million, respectively. Certain of these leases also provide for percentage rents based upon the level of sales achieved by the tenant. Percentage rent is recognized in the period when the tenants' sales breakpoint is met. In addition, leases typically provide for the reimbursement to the Company of real estate taxes, insurance and other property operating expenses. These reimbursements are recognized as revenue in the period the related expenses are incurred.

The Company makes estimates of the uncollectability of its accounts receivable related to tenant revenues. An allowance for doubtful accounts has been provided against certain tenant accounts receivable that are estimated to be uncollectible. Once the amount is ultimately deemed to be uncollectible, it is written off. Rents receivable at December 31, 2011 and 2010 are shown net of an allowance for doubtful accounts of \$5.3 million and \$7.2 million, respectively.

Notes Receivable and Preferred Equity Investments

Notes receivable and preferred equity investments are intended to be held to maturity and are carried at amortized cost. Interest income from notes receivable and preferred equity investments are recognized on the effective interest method over the expected life of the loan. Under the effective interest method, interest or fees to be collected at the origination of the loan or the payoff of the loan are recognized over the term of the loan as an adjustment to yield.

Allowances for real estate notes receivable are established based upon management's quarterly review of the investments. In performing this review, management considers the estimated net recoverable value of the loan as well as other factors, including the fair value of any collateral, the amount and status of any senior debt, and the prospects for the borrower. Because this determination is based upon projections of future economic events, which are inherently subjective, the amounts ultimately realized from the loans may differ materially from the carrying value at the balance sheet date. Interest income recognition is generally suspended for loans when, in the opinion of management, a full recovery of income and principal becomes doubtful. Income recognition is resumed when the suspended loan becomes contractually current and performance is demonstrated to be resumed.

During 2009, the Company provided a \$1.7 million reserve on a note receivable as a result of the loss of an anchor tenant at the underlying collateral property.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents are maintained at financial institutions and, at times, balances may exceed the federally insured limit by the Federal Deposit Insurance Corporation. The Company has never experienced any losses related to these balances.

Restricted Cash and Cash in Escrow

Restricted cash and cash in escrow consist principally of cash held for real estate taxes, construction costs, property maintenance, insurance, minimum occupancy and property operating income requirements at specific properties as required by certain loan agreements.

Income Taxes

The Company has made an election to be taxed, and believes it qualifies as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Code"). To maintain REIT status for Federal income tax purposes, the Company is generally required to distribute at least 90% of its REIT taxable income to its shareholders as well as comply with certain other income, asset and organizational requirements as defined in the Code. Accordingly, the Company is generally not subject to Federal corporate income tax to the extent that it distributes 100% of its REIT taxable income each year.

Although it may qualify for REIT status for Federal income tax purposes, the Company is subject to state income or franchise taxes in certain states in which some of its properties are located. In addition, taxable income from non-REIT activities managed through the Company's taxable REIT subsidiaries ("TRS") is fully subject to Federal, state and local income taxes.

The Company accounts for TRS income taxes under the liability method as required by ASC Topic 740, "Income Taxes." Under the liability method, deferred income taxes are recognized for the temporary differences between GAAP basis and the tax basis of the TRS income, assets and liabilities.

In accordance with ASC Topic 740, the Company believes that it has appropriate support for the income tax positions taken and, as such, does not have any uncertain tax positions that, if successfully challenged, could result in a material impact on the Company's financial position or results of operation. The prior three years' income tax returns are subject to review by the Internal Revenue Service. The Company recognizes potential interest and penalties related to uncertain tax positions as a component of the provision for income taxes.

Stock-based Compensation

The Company accounts for stock-based compensation pursuant to ASC Topic 718, "Compensation – Stock Compensation." As such, all equity based awards are reflected as compensation expense in the Company's consolidated financial statements over their vesting period based on the fair value at the date of grant.

Recent Accounting Pronouncements

During April 2011, the FASB issued Accounting Standards Update ("ASU") No. 2011-02, "A Creditor's Determination of Whether a Restructuring Is a Troubled Debt Restructuring." ASU 2011-02 requires a creditor to evaluate whether a restructuring constitutes a troubled debt restructuring by concluding that the restructuring constitutes a concession and that the debtor is experiencing financial difficulties and was effective for the first interim or annual period beginning on or after June 15, 2011. The adoption of ASU 2011-02 did not have a material impact on the Company's financial condition or results of operations.

During May 2011, the FASB issued ASU No. 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs." ASU No. 2011-04 amended ASC 820, Fair Value Measurements and Disclosures, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards ("IFRS"). The amendments, which primarily require additional fair value disclosure, are to be applied prospectively. ASU 2011-04 is effective for interim and annual periods beginning after December 15, 2011. The adoption of ASU No. 2011-04 is not expected to have a material impact on the Company's financial condition or results of operations.

During June 2011, the FASB issued ASU No. 2011-05, "Presentation of Comprehensive Income," which revises the manner in which companies present comprehensive income. Under ASU No. 2011-05, companies may present comprehensive income, which is net income adjusted for the components of other comprehensive income, either in a single continuous statement of comprehensive income or by using two separate but consecutive statements. Regardless of the alternative chosen, companies must display adjustments for items reclassified from other comprehensive income into net income within the presentation of both net income and other comprehensive income. ASU 2011-05 is effective for interim and annual periods beginning after December 15, 2011, on a retrospective basis. The Company adopted ASU 2011-05 as of December 31, 2011 and the adoption did not have a material impact on the Company's financial condition or results of operations.

During December 2011, the FASB issued ASU No. 2011-10, "Property, Plant and Equipment (Topic 360): Derecognition of In substance Real Estate - a Scope Clarification" which clarifies current guidance found in ASC Topic 810 as to how to account when a reporting entity ceases to have a controlling financial interest in a subsidiary that is in substance real estate as a result of default on the subsidiary's nonrecourse debt. ASU No. 2011-10 is effective for fiscal years, and interim periods within those years,

2. Acquisition and Disposition of Properties and Discontinued Operations

A. Acquisition and Disposition of Properties

Acquisitions

The Company acquired the following properties through its Core Portfolio, Fund III and Fund II as follows:

Core Portfolio

During September 2011, acquired a 50% equity interest in an entity which owns a six property portfolio (the "Georgetown Portfolio") located in Washington, D.C. for a purchase price of \$13.4 million, which included the assumption of 50% of in-place debt of \$9.2 million, inclusive of the Company's existing mezzanine loan to the entity (Note 5).

During August 2011, acquired a six property portfolio located in Chicago, Illinois for \$18.0 million.

During August 2011, acquired a newly constructed 13,000 square foot property located in the Bronx, New York for \$9.1 million.

During June 2011, acquired a 6,000 square foot single-tenant retail condominium located in New York, New York for \$4.8 million.

During May 2011, acquired a 44,000 square foot retail property located in Chicago, Illinois, for \$28.4 million.

The Company expensed \$0.8 million of costs related to these 2011 Core Portfolio acquisitions.

Fund III

During December 2011, acquired New Hyde Park Shopping Center, a 31,500 square foot center, located in New Hyde Park, NY, for approximately \$11.3 million.

During December 2011, in a venture with an unaffiliated partner, acquired Parkway Crossing, a 260,000 square foot center located in Baltimore, MD for approximately \$21.6 million.

During December 2011, in a venture with an unaffiliated partner, acquired 654 Broadway, an 18,700 square foot property located in New York City for approximately \$13.3 million.

During April 2011, acquired a 105,000 square foot property located in the East Loop section of downtown Chicago, Illinois for \$31.6 million.

During February 2011, in a venture with an unaffiliated partner, acquired three retail properties ("Lincoln Road"), aggregating 61,400 square feet located in the Lincoln Road area of South Miami Beach, Florida for \$51.9 million, which included the assumption of \$20.6 million of in-place mortgage debt. Fund III has a 95% interest in these properties.

During February 2011, in a venture with an unaffiliated partner, acquired a 64,600 square foot single-tenant retail property ("White Oak") located in Silver Spring, Maryland for \$9.8 million. Fund III has a 90% interest in the property.

The Company expensed \$0.6 million of costs related to these 2011 Fund III acquisitions.

During December 2010, in a joint venture with an unaffiliated partner, acquired White City Shopping Center, a 255,000 square foot center located in Shrewsbury, Massachusetts for \$56.0 million.

During January 2009, acquired the 641,000 square foot Cortlandt Towne Center in Cortlandt, NY for \$78.0 million and expensed \$0.2 million of costs associated with this acquisition.

2. Acquisition and Disposition of Properties and Discontinued Operations, continued

The following table sets forth a summary of the finalized acquisition purchase price consideration of each major class of assets acquired and liabilities assumed in the 2011 acquisitions discussed above:

(dollars in thousands)	Total Purchase Price Consideration
Land	\$ 24,993
Buildings and improvements	39,594
Acquisition-related intangible assets (in Acquired lease intangibles, net)	9,945
Acquisition-related intangible liabilities (in Acquired lease and other intangibles, net)	(627)
Total consideration	\$ 73,905

Fund II

Prior to June 30, 2010, the Company, through Fund II in a joint venture with an unaffiliated partner, California Urban Investment Partners, LLC (“CUIP”), owned a leasehold interest in CityPoint, a mixed-use, redevelopment project located in downtown Brooklyn, New York. Fund II owned a 75% interest in the retail component, a 50% interest in the office component and no interest in the residential component of CityPoint. CUIP owned the remaining interests in the retail and office components and 100% of the residential component of the project. Accordingly, Fund II’s investment represented 24.75% of the overall original acquisition cost and subsequent carry and pre-development costs and was accounted for using the equity method.

During June 2010, Fund II acquired all of CUIP’s interest in CityPoint for \$9.2 million (the “Transaction”), consisting of a current payment of \$2.0 million and deferred payments, potentially through 2020, aggregating \$7.2 million. Fund II also assumed CUIP’s share of the first mortgage debt of \$19.6 million.

The Transaction was a business combination achieved in stages and, as a result, Fund II was required to report its entire investment in CityPoint at fair market value. Based on a June 30, 2010 third-party appraisal, CityPoint was valued at \$108.0 million which resulted in Fund II recording a non-cash gain from bargain purchase of approximately \$33.8 million. A majority of the gain was attributable to the components of CityPoint that was acquired as the book value of the Company’s original investment approximated fair value. The Operating Partnership’s share of this gain, net of the noncontrolling interests’ share, totaled \$6.3 million. As a result of the Transaction, the Company changed its method of accounting for CityPoint from the equity method and now consolidates CityPoint in its consolidated financial statements. As CityPoint is currently in the redevelopment stage, there are no revenues or earnings from CityPoint included in the Company’s consolidated statements of income for the years ended December 31, 2011, 2010 and 2009.

Dispositions

During 2011 and 2009, the Company disposed of the following properties:

3. Segment Reporting

The Company has five reportable segments: Core Portfolio, Opportunity Funds, Self-Storage Portfolio, Notes Receivable and Other. Notes Receivable consists of the Company's notes receivable and preferred equity investment and related interest income. Other consists primarily of management fees and interest income. The accounting policies of the segments are the same as those described in the summary of significant accounting policies. The Company evaluates property performance primarily based on net operating income before depreciation, amortization and certain nonrecurring items. Investments in the Core Portfolio are typically held long-term. Given the contemplated finite life of the Opportunity Funds, these investments are typically held for shorter terms. Fees earned by the Company as the general partner/member of the Opportunity Funds are eliminated in the Company's consolidated financial statements. The following table sets forth certain segment information for the Company, reclassified for discontinued operations, as of and for the years ended December 31, 2011, 2010, and 2009 (does not include unconsolidated affiliates):

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

4. Investments In and Advances to Unconsolidated Affiliates

Core Portfolio

The Company owns a 22.2% interest in an approximately one million square foot retail portfolio (the “Brandywine Portfolio”) located in Wilmington, Delaware and a 49% interest in a 311,000 square foot shopping center located in White Plains, New York (“Crossroads”). These investments are accounted for under the equity method.

During September 2011, the Company acquired a 50% equity interest in the Georgetown Portfolio (Note 2). The unaffiliated venture partner for the Georgetown Portfolio maintains control over this investment and, as such, the Company accounts for this investment under the equity method. Due to this acquisition, the Company reclassified an existing \$8.0 million mezzanine loan collateralized by five properties within the Georgetown Portfolio from Notes Receivable to Investments in and Advances to Unconsolidated Affiliates.

Opportunity Funds

RCP Venture

The Company, along with Klaff Realty, LP (“Klaff”) and Lubert-Adler Management, Inc. (“Lubert-Adler”), formed an investment group, the RCP Venture, for the purpose of making investments in surplus or underutilized properties owned by retailers. The RCP Venture is neither a single entity nor a specific investment. Any member of this group has the option of participating, or not, in any individual investment and each individual investment has been made on a stand-alone basis through a separate limited liability company (“LLC”). These investments have been made through different investment vehicles with different affiliated and unaffiliated investors and different economics to the Company. Investments under the RCP Venture are structured as separate joint ventures as there may be other investors participating in certain investments in addition to Klaff, Lubert-Adler and Acadia. The Company has made these investments through its subsidiaries, Mervyns I, Mervyns II and Fund II, (together the “Acadia Investors”), all on a non-recourse basis. Through December 31, 2011, the Acadia Investors have made investments in Mervyns Department Stores (“Mervyns”) and Albertson’s, including additional investments in locations that are separate from these original investments (“Add-On Investments”). Additionally, they have invested in Shopko, Marsh and Rex Stores Corporation (collectively “Other RCP Investments”).

Mervyns Department Stores

Through Mervyns I and Mervyns II, the Company invested in a consortium to acquire Mervyns, consisting of 262 stores (“REALCO”) and its retail operations (“OPCO”), from Target Corporation. The Company’s share of this investment was \$23.2 million. Subsequent to the initial acquisition, the Company, through Mervyns I and Mervyns II, made additional investments of \$2.9 million. Through December 31, 2011, REALCO has disposed of a significant portion of the portfolio. In addition, in November 2007, the Company sold its interest in OPCO and, as a result, has no further investment in OPCO. Through December 31, 2011, the Company has received distributions from this investment totaling \$46.0 million.

Through December 31, 2011, the Company, through Mervyns I and Mervyns II, made Add-On Investments in Mervyns totaling \$6.5 million and have received distributions totaling \$3.6 million, including \$1.9 million received in 2011.

Albertson’s

The RCP Venture made its second investment as part of an investment consortium, acquiring Albertson’s and Cub Foods, of which the Company’s share was \$20.7 million. Through December 31, 2011, the Company has received distributions from this investment totaling \$81.6 million, including \$4.5 million and \$11.4 million received in 2011 and 2010, respectively.

Through December 31, 2011, the Company, through Mervyns II, made Add-On Investments in Albertson’s totaling \$2.4 million and received distributions totaling \$1.7 million, including \$0.5 million received in 2011.

Other RCP Investments

Through December 31, 2011, the Company, through Fund II, made investments of \$1.1 million in Shopko, \$0.7 million in Marsh, and \$2.0 million in Add-On Investments in Marsh. As of December 31, 2011, the Company has received distributions totaling \$1.7 million from its Shopko investment and \$2.6 million from its Marsh and Marsh Add-On Investments.

During July of 2007, the RCP Venture acquired a portfolio of 87 retail properties from Rex Stores Corporation, which the Company invested through Mervyns II. The Company's share of this investment was \$2.7 million. As of December 31, 2011, the Company has received distributions totaling \$0.8 million.

The following table summarizes activity related to the RCP Venture investments from inception through December 31, 2011:

Investment	Year Acquired	Invested Capital and Advances	Distributions	Operating Partnership Share	
				Invested Capital and Advances	Distributions
Mervyns	2004	\$ 26,058	\$ 45,966	\$ 4,901	\$ 11,251

Total		\$ 62,184	\$ 137,935	\$ 11,864	\$ 29,752

The Company accounts for the original investments in Mervyns and Albertson's under the equity method of accounting as the Company has the ability to exercise significant influence, but does not have financial or operating control.

The Company accounts for the Add-On Investments and Other RCP Investments under the cost method. Due to its minor ownership interest, based on the size of the investments as well as the terms of the underlying operating agreements, the Company has no influence over such entities' operating and financial policies. Other than the minority investor rights to which the Company is entitled pursuant to statute, it has no rights other than to receive its pro-rata share of cash distributions as declared by the managers of the Add-On Investments and Other RCP Investments. The Company has no rights with respect to the control and operation of these investment vehicles, nor with the formulation and execution of business and investment policies.

The Acadia Investors have non-controlling interests in the individual investee LLC's as follows:

Other Opportunity Fund Investments

Fund I Investments

Fund I owned a 50% interest in the Sterling Heights Shopping Center, which was accounted for under the equity method of accounting. During the year ended December 31, 2009, Fund I recorded an impairment reserve of \$3.8 million related to this investment. On March 25, 2010, the Sterling Heights Shopping Center was sold for \$2.3 million. The proceeds from this sale together with the balance of Fund I's recourse obligation of \$0.6 million were used to fully liquidate the outstanding mortgage loan obligation.

Fund II Investments

Prior to June 30, 2010, Fund II had a 24.75% interest in CityPoint, a redevelopment project located in downtown Brooklyn, NY, which was accounted for under the equity method. On June 30, 2010, Fund II acquired the remaining interest in the project from its unaffiliated partner and, as a result, consolidates the CityPoint investment. (Note 2 - "Fund II").

Fund III Investments

The unaffiliated venture partners for the Lincoln Road (Note 2), White Oak (Note 2), Parkway Crossing (Note 2) and the White City Shopping Center (Note 2) investments maintain control over these entities and, as such, the Company accounts for these investments under the equity method.

During June 2010, Fund III, in a joint venture with an unaffiliated partner, invested in an entity for the purpose of providing management services to owners of self-storage properties, including the 14 locations currently owned through Fund II and Fund III. Fund III has a 50% interest in the entity. This entity was determined to be a variable interest entity for which the Company was determined not to be the primary beneficiary. As such, the Company accounts for this investment under the equity method.

8. Mortgages Payable

At December 31, 2011 and 2010, mortgage notes payable, excluding the net valuation premium on the assumption of debt, aggregated \$787.9 million and \$806.1 million, respectively, and were collateralized by 29 properties and related tenant leases. Interest rates on the Company's outstanding mortgage indebtedness ranged from 1.55% to 7.34% with maturities that ranged from September 2012 to November 2032. Certain loans are cross-collateralized and contain cross-default provisions. The loan agreements contain customary representations, covenants and events of default. Certain loan agreements require the Company to comply with affirmative and negative covenants, including the maintenance of debt service coverage and leverage ratios.

The following reflects mortgage loan activity for the year ended December 31, 2011:

During November 2011, the Company extended the maturity date of a \$9.9 million loan to September 1, 2012. The extension required a payment of \$0.5 million, reducing the balance of the loan to \$9.4 million. The loan continues to bear interest at LIBOR plus 325 basis points.

During November 2011, the Company extended the maturity date of an \$8.3 million loan that was maturing to October 30, 2012. The loan continues to bear interest at LIBOR plus 165 basis points.

During October 2011, the Company extended the maturity date of its \$64.5 million revolving credit facility collateralized by six properties from December 1, 2011 to December 1, 2012. The loan continues to bear interest at LIBOR plus 125 basis points.

During October 2011, the Company amended and extended the maturity of a \$13.7 million loan collateralized by a property that was scheduled to mature in December 2011. The amendment required a \$0.9 million pay down of principal, reducing the balance of the loan to \$12.8 million. The loan bears interest at LIBOR plus 225 basis points, matures on September 30, 2014, and has one three-year extension option.

During September 2011, the Company modified and extended the Fund III subscription line of credit. The modification provided a one year extension of the maturity date to October 10, 2012 and adjusted the interest rate to LIBOR plus 225 basis points. During

2011, the Company borrowed \$71.6 million and repaid \$107.0 million under this line of credit. As of December 31, 2011, the total outstanding amount on this line of credit was \$136.1 million.

During September 2011, the Company closed on a \$12.5 million loan collateralized by a property. The loan bears interest at LIBOR plus 235 basis points and matures on September 30, 2014 with two one-year extension options.

During August 2011, the Company amended an existing \$58.0 million loan collateralized by a property. The amendment provided for an additional \$4.0 million of proceeds. The amended loan continues to bear interest at LIBOR plus 400 basis points, subject to a LIBOR floor of 250 basis points and matured on January 12, 2012 and was extended. Previously, during January 2011, the Company had amended this loan to provide for an additional \$3.0 million supplemental loan and a \$7.0 million subordinate loan. During 2011, the Company drew down an additional \$16.2 million on this construction loan. As of December 31, 2011, the total outstanding amount on this loan was \$56.5 million. Subsequent to December 31, 2011, the loan maturity date was extended to September 11, 2012. All other terms have remained the same.

During August 2011, the Company closed on a \$42.0 million loan collateralized by six properties. The loan bears interest at LIBOR plus 415 basis points, with a LIBOR floor of 50 basis points and matures on August 31, 2013. The proceeds of this loan were used to repay a \$41.5 million loan that matured July 31, 2011.

During June 2011, the Company modified an existing \$85.3 million loan collateralized by a property. The modification extended the maturity date from October 4, 2011 to September 30, 2012. The loan continues to bear interest at LIBOR plus 350 basis points subject to a LIBOR floor of 150 basis points.

During June 2011, the Company modified an existing \$9.4 million loan collateralized by a property. The modification extended the maturity date from June 29, 2012 to June 30, 2018. The loan continues to bear interest at LIBOR plus 140 basis points.

During January 2011, the Company purchased a \$9.3 million mortgage loan collateralized by one of its properties for \$7.6 million, resulting in a \$1.7 million gain on extinguishment of debt.

During January 2011, the Company borrowed the remaining \$2.4 million of a \$34.0 million loan collateralized by a property.

9. Convertible Notes Payable

In December 2006 and January 2007, the Company issued a total of \$115.0 million of convertible notes with a fixed interest rate of 3.75% due 2026 (the "Convertible Notes"). The Convertible Notes were issued at par and require interest payments semi-annually in arrears on June 15 and December 15 of each year. The Convertible Notes are unsecured unsubordinated obligations and rank equally with all other unsecured and unsubordinated indebtedness. The Convertible Notes have an effective interest rate of 6.03% giving effect to the accounting treatment required by ASC Topic 470-20, "Debt with Conversion and Other Options." The Convertible Notes had an initial conversion price of \$30.86 per share. The conversion rate may be adjusted under certain circumstances, including the payment of cash dividends in excess of the regular quarterly cash dividend in place at the time the Convertible Notes were issued. As of December 31, 2011, the adjusted conversion price is \$29.26. Upon conversion of the Convertible Notes, the Company will deliver cash and, in some circumstances, Common Shares, as specified in the indenture relating to the Convertible Notes. In general, the Convertible Notes may only be converted prior to maturity during any calendar quarter beginning after December 31, 2006 if the Company's Common Shares trade at 130% of the conversion price for at least 20 days within a consecutive 30 day trading period. Prior to December 20, 2011, the Company did not have the right to redeem Convertible Notes, except to preserve its status as a REIT. After December 20, 2011, the Company has the right to redeem the notes, in whole or in part, at any time and from time to time, for cash equal to 100% of the principal amount of the notes plus any accrued and unpaid interest to, but not including, the redemption date. The Holders of notes may require the Company to repurchase their notes, in whole or in part, on December 20, 2011, December 15, 2016, and December 15, 2021 for cash equal to 100% of the principal amount of the notes to be repurchased plus any accrued and unpaid interest to, but not including, the repurchase date (the "Repurchase Option").

In general, upon a conversion of notes, the Company will deliver cash and, at the Company's election, its Common Shares, with an aggregate value, which the Company refers to as the "conversion value", equal to the conversion rate multiplied by the average price of the Company's Common Shares. The net amount may be paid, at the Company's option, in cash, its Common Shares or a combination of cash and its Common Shares.

The Convertible Notes "if-converted" value does not exceed their principal amount as of December 31, 2011 and there are no derivative transactions that were entered into in connection with the issuance of the Convertible Notes.

Effective January 1, 2009, the Company adopted ASC Topic 470-20 which required it to retrospectively restate and reclassify previously disclosed consolidated financial statements to allocate the proceeds from the issuance of convertible debt between a debt component and an equity component. The resulting discount on the debt component was amortized over the period the convertible debt was expected to be outstanding, which was December 11, 2006 to December 20, 2011, as additional non-cash interest expense. The equity component recorded as additional paid-in capital was \$11.3 million, which represented the difference between the proceeds from the issuance of the Convertible Notes and the fair value of the liability at the time of issuance. As the Company determined, in connection with the Repurchase Option, that the Convertible Notes matured on December 20, 2011, as of December 31, 2011, all loan costs associated with the issuance have been expensed and there is no remaining carrying amount of the equity component included in additional paid-in capital.

The carrying amount of the equity component included in additional paid-in capital totaled \$1.1 million at December 31, 2010. Interest expense relating to the contractual interest coupon recognized in the Consolidated Statements of Income was \$1.5 million, \$1.9 million and \$2.5 million for the years ended December 31, 2011, 2010, and 2009, respectively. The additional non-cash interest expense recognized in the Consolidated Statements of Income was \$0.8 million, \$1.0 million and \$1.3 million for the years ended December 31, 2011, 2010, and 2009, respectively.

During 2011, the Company purchased \$48.8 million of the Convertible Notes, including \$24.0 million that were repurchased on December 20, 2011 pursuant to the Repurchase Option. As of December 31, 2011, the Company has purchased \$114.1 million in principal amount of its convertible debt at an average discount of approximately 11%. The transactions resulted in a (loss) gain on debt extinguishment of (\$0.4) million and \$7.1 million for the years ended December 31, 2011 and 2009, respectively. The outstanding Convertible Notes principal amount as of December 31, 2011 and 2010 was \$0.9 million and \$49.8 million, respectively. The outstanding Convertible Notes net carrying amount as of December 31, 2011 and 2010 was \$0.9 million and \$48.7 million, respectively.

10. Financial Instruments and Fair Value Measurements

Derivative Financial Instruments

The FASB's derivative and hedging guidance establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. As required by the FASB guidance, the Company records all derivatives on the balance sheet at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative and the resulting designation. Derivatives used to hedge the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges. Derivatives used to hedge the exposure to variability in expected future cash flows, or other types of forecast transactions, are considered cash flow hedges.

For derivatives designated as fair value hedges, changes in the fair value of the derivative and the hedged item related to the hedged risk are recognized in earnings. For derivatives designated as cash flow hedges, the effective portion of changes in the fair value of the derivative is initially reported in other comprehensive (loss) income (outside of earnings) and subsequently reclassified to earnings when the hedged transaction affects earnings, and the ineffective portion of changes in the fair value of the derivative is recognized directly in earnings. The Company assesses the effectiveness of each hedging relationship by comparing the changes in fair value or cash flows of the derivative hedging instrument with the changes in fair value or cash flows of the designated hedged item or transaction. For derivatives not designated as hedges, changes in fair value would be recognized in earnings.

As of December 31, 2011, the Company's derivative financial instruments consisted of six interest rate LIBOR swaps with an aggregate notional value of \$57.0 million which fix interest at rates from 2.7% to 5.1% and mature between March 2012 and December 2022. The Company also has three derivative financial instruments with a notional value of \$75.0 million which cap interest at 3.0%, 6.0% and 3.5% and mature in October 2012, April 2013 and August 2013, respectively. The fair value of the derivative liability of these instruments, which is included in other liabilities in the consolidated balance sheets, totaled \$3.5 million and \$2.8 million at December 31, 2011 and 2010, respectively. The notional value does not represent exposure to credit, interest rate or market risks.

These derivative instruments have been designated as cash flow hedges and hedge the future cash outflows on variable rate mortgage debt. Such instruments are reported at the fair value reflected above. As of December 31, 2011 and 2010, unrealized losses totaling \$3.9 million and \$2.8 million, respectively, were reflected in accumulated other comprehensive loss. It is estimated that approximately \$1.5 million included in accumulated other comprehensive loss related to derivatives will be reclassified to interest expense in the 2012 results of operations.

As of December 31, 2011 and 2010, no derivatives were designated as fair value hedges or hedges of net investments in foreign operations. Additionally, the Company does not use derivatives for trading or speculative purposes and currently does not have any derivatives that are not designated as hedges. As of December 31, 2011, none of the Company's hedges were ineffective.

The FASB's fair value measurements and disclosure guidance requires the valuation of certain of the Company's financial assets and liabilities, based on a three-level fair value hierarchy. Market participant assumptions obtained from sources independent of the Company are observable inputs that are classified within Levels 1 and 2 of the hierarchy, and the Company's own assumptions about market participant assumptions are unobservable inputs classified within Level 3 of the hierarchy.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2011:

(dollars in thousands)	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
<u>Liabilities</u>			
Derivative financial instruments	\$ —	\$ 3,518	\$ —

During the year ended December 31, 2011, the Company determined that the value of the Granville Centre owned by Fund I was impaired and recorded an impairment loss of \$6.9 million (Note 1). The Company estimated the Granville Centre's fair value by using projected future cash flows, which it determined were not sufficient to recover the property's net book value. The inputs used to determine the fair value of the Granville Centre were classified as Level 3 under authoritative guidance for fair value measurements.

Financial Instruments

Certain of the Company's assets and liabilities meet the definition of financial instruments. Except as disclosed below, the carrying amounts of these financial instruments approximates their fair value due to the short-term nature of such accounts.

The Company has determined the estimated fair values of the following financial instruments by discounting future cash flows utilizing a discount rate equivalent to the rate at which similar financial instruments would be originated at the reporting date:

	December 31, 2011		December 31, 2010

11. Shareholders' Equity and Noncontrolling Interests

Common Shares

During the first quarter of 2011, 40,254 employee Restricted Shares were canceled to pay the employees' income taxes due on the value of the portion of their Restricted Shares that vested. During the year ended December 31, 2011, the Company recognized accrued Common Share and Common OP Unit-based compensation totaling \$4.0 million in connection with the vesting of Restricted Shares and Units (Note 15).

During November 2011, the Company issued 2.25 million Common Shares generating net proceeds of approximately \$45.0 million.

Noncontrolling Interests

The following table summarizes the change in the noncontrolling interests since December 31, 2010:

	Noncontrolling Interests in Operating Partnership	Noncontrolling Interests in Partially-Owned Affiliates

Noncontrolling interests in partially-owned affiliates include third-party interests in Fund I, II and III, Mervyns I and II, and ten other entities.

In 2005, the Company issued 250,000 Restricted Common OP Units to Klaff in consideration for an interest in certain management contract rights. During 2010, Klaff converted the 250,000 Restricted Common OP Units into Common Shares.

The Series A Preferred OP Units were issued in 1999 in connection with the acquisition of a property. Through December 31, 2011, 1,392 Series A Preferred OP Units were converted into 185,600 Common OP Units and then into Common Shares. The 188 remaining Series A Preferred OP Units are currently convertible into Common OP Units based on the stated value divided by \$7.50. Either the Company or the holders can currently call for the conversion of the Series A Preferred OP Units at the lesser of \$7.50 or the market price of the Common Shares as of the conversion date.

12. Related Party Transactions

During February 2010, Klaff converted all 250,000 of its Restricted Common OP Units into 250,000 Common Shares.

In 2009, the Company earned asset management, leasing, disposition, development and construction fees for providing services to an existing portfolio of retail properties and/or leasehold interests in which Klaff had an interest. Fees earned by the Company in connection with this portfolio were \$0.4 million for the year ended December 31, 2009.

The Company earns fees from one of its investments in unconsolidated partnerships (Note 4). The Company earned property management, construction, legal and leasing fees from the Brandywine Portfolio totaling \$1.0 million, \$0.8 million and \$0.7 million for the years ended December 31, 2011, 2010 and 2009, respectively.

Related party receivables due from unconsolidated affiliates totaled \$1.4 million and \$2.4 million at December 31, 2011 and 2010, respectively.

Lee Wielansky, the Lead Trustee of the Company, was paid a consulting fee of \$0.1 million for each of the years ended December 31, 2011, 2010, and 2009.

13. Tenant Leases

Space in the shopping centers and other retail properties is leased to various tenants under operating leases that usually grant tenants renewal options and generally provide for additional rents based on certain operating expenses as well as tenants' sales volume.

Minimum future rentals to be received under non-cancelable leases for shopping centers and other retail properties as of December 31, 2011 are summarized as follows:

(dollars in thousands)

2012	\$	87,873

14. Lease Obligations

The Company leases land at nine of its shopping centers, which are accounted for as operating leases and generally provide the Company with renewal options. Ground rent expense was \$4.6 million, \$3.7 million, and \$2.5 million (including capitalized ground rent at properties under development of \$1.5 million, \$0.5 million and \$0.6 million) for the years ended December 31, 2011, 2010 and 2009, respectively. The leases terminate at various dates between 2020 and 2078. These leases provide the Company with options to renew for additional terms aggregating from 20 to 71 years. The Company leases space for its White Plains corporate office for a term expiring in 2015. Office rent expense under this lease was \$1.4 million, \$1.5 million and \$1.5 million for the years ended December 31, 2011, 2010 and 2009, respectively. Future minimum rental payments required for leases having remaining non-cancelable lease terms are as follows:

15. Share Incentive Plan

During 2003, the Company adopted the 2003 Share Incentive Plan (the "2003 Plan"). The 2003 Plan authorizes the issuance of options, share appreciation rights, restricted shares ("Restricted Shares"), restricted OP Units ("LTIP Units") and performance units (collectively, "Awards") to officers, employees and trustees of the Company and consultants to the Company equal to up to four percent of the total Common Shares of the Company outstanding from time to time on a fully diluted basis. However, no participant may receive more than the equivalent of 1,000,000 Common Shares during the term of the 2003 Plan with respect to Awards. Options are granted by the Compensation Committee (the "Committee"), which currently consists of three non-employee Trustees, and will not have an exercise price less than 100% of the fair market value of the Common Shares and a term of greater than ten years at the grant date. Vesting of options is at the discretion of the Committee. Share appreciation rights provide for the participant to receive, upon exercise, cash and/or Common Shares, at the discretion of the Committee, equal to the excess of the market value of the Common Shares at the exercise date over the market value of the Common Shares at the grant date. The Committee determines the restrictions placed on Awards, including the dividends or distributions thereon and the term of such restrictions. The Committee also determines the award and vesting of performance units and performance shares based on the attainment of specified performance objectives of the Company within a specified performance period. Through December 31, 2011, no share appreciation rights or performance units/shares had been awarded. In connection with the Awards, to the extent that a portion of senior management's cash bonus is converted into elective Awards, the number of shares issued are at a 25% discount and vest over time.

During 2006, the Company adopted the 2006 Share Incentive Plan (the "2006 Plan"). The 2006 Plan is substantially similar to the 2003 Plan, except that the maximum number of Common Share equivalents that the Company may issue pursuant to the 2006 Plan is 500,000.

On March 3, 2011 and March 22, 2011, the Company issued a combined total of 431,248 LTIP Units and 210 Restricted Shares to officers of the Company and 164 LTIP Units and 9,584 Restricted Shares to other employees of the Company. Vesting with respect to these awards is recognized ratably over the five annual anniversaries following the issuance date. Vesting with respect to 11% of the awards issued to officers are also generally subject to achieving certain Company performance measures. LTIP Units are similar to Restricted Shares but provide for a quarterly partnership distribution in a like amount as paid to Common OP Units. This distribution is paid on both unvested and vested LTIP Units. The LTIP Units are convertible into Common OP Units and Common Shares upon vesting and a revaluation of the book capital accounts.

15. Share Incentive Plan, continued

These awards were measured at their fair value as if they were vested on the grant date. Fair value was established as the market price of the Company's Common Shares as of the close of trading on the day preceding the grant date.

The total value of the above Restricted Shares and LTIP Units as of the grant date was \$8.4 million, of which \$2.4 million was recognized in compensation expense during 2011 and \$6.0 million will be recognized in compensation expense over the vesting period. The weighted average fair value for Restricted Shares and LTIP Units granted for the years ended December 31, 2011, 2010 and 2009 were \$19.08, \$16.73 and \$10.31, respectively.

Total long-term incentive compensation expense, including the expense related to the above mentioned plans, was \$4.0 million, \$3.8 million and \$3.7 million for the years ended December 31, 2011, 2010 and 2009, respectively.

On May 10, 2011, the Company issued 22,154 Restricted Shares to Trustees of the Company in connection with Trustee fees. Vesting with respect to 10,279 of the Restricted Shares will be on the first anniversary of the date of issuance and 11,875 of the Restricted Shares vest over three years with 33% vesting on each of the next three anniversaries of the issuance date. The Restricted Shares do not carry voting rights or other rights of Common Shares until vesting and may not be transferred, assigned or pledged until the recipients have a vested non-forfeitable right to such shares. Dividends are not paid currently on unvested Restricted Shares, but are paid cumulatively from the issuance date through the applicable vesting date of such Restricted Shares. Trustee fee expense of \$0.2 million for the year ended December 31, 2011 has been recognized in the accompanying consolidated financial statements related to this issuance.

In 2009, the Company adopted the Long Term Investment Alignment Program (the "Program") pursuant to which the Company may award units primarily to senior executives which would entitle them to receive up to 25% of any future Fund III Promote when and if such Promote is ultimately realized. The Company has awarded units representing 71% of the Program, which were determined to have no value at issuance or as of December 31, 2011. In accordance with ASC Topic 718, "Compensation - Stock Compensation," compensation relating to these awards will be recorded based on the change in the estimated fair value at each reporting period.

As of December 31, 2011, the Company had 101,283 options outstanding to officers and employees and 49,000 options outstanding to non-employee Trustees of the Company of which all have vested. These options are for ten-year terms from the grant date and vested in three equal annual installments, which began on their respective grant dates.

A summary of option activity under all option arrangements as of December 31, 2010 and 2011, and changes during the years then ended is presented below:

Options	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (dollars in thousands)

Unvested at December 31, 2011	75,739	\$ 18.25	838,898	\$ 17.85

As of December 31, 2011, there was \$9.4 million of total unrecognized compensation cost related to unvested share-based compensation arrangements granted under share incentive plans. That cost is expected to be recognized over a weighted-average period of 1.9 years. The total fair value of Restricted Shares that vested during the years ended December 31, 2011, 2010 and 2009 was \$2.2 million, \$3.0 million and \$5.0 million, respectively.

16. Employee Share Purchase and Deferred Share Plan

The Acadia Realty Trust Employee Share Purchase Plan (the "Purchase Plan"), allows eligible employees of the Company to purchase Common Shares through payroll deductions. The Purchase Plan provides for employees to purchase Common Shares on a quarterly basis at a 15% discount to the closing price of the Company's Common Shares on either the first day or the last day of the quarter, whichever is lower. A participant may not purchase more than \$25,000 in Common Shares per year. Compensation expense will be recognized by the Company to the extent of the above discount to the closing price of the Common Shares with respect to the applicable quarter. During 2011, 2010 and 2009, a total of 4,886, 6,184 and 8,744 Common Shares, respectively, were purchased by employees under the Purchase Plan. Associated compensation expense of \$0.01 million was recorded in 2011 and \$0.02 million was recorded in both 2010 and 2009.

During May of 2006, the Company adopted a Trustee Deferral and Distribution Election ("Trustee Deferral Plan") whereby the participating Trustees have deferred compensation of \$0.06 million in both 2011 and 2010 and \$0.05 million for 2009. During 2009, certain trustees elected to receive 14,722 Common Shares, which were previously deferred, from the Trustee Deferral Plan.

17. Employee 401(k) Plan

The Company maintains a 401(k) plan for employees under which the Company currently matches 50% of a plan participant's contribution up to 6% of the employee's annual salary. A plan participant may contribute up to a maximum of 15% of their compensation up to \$16,500 for the year ended December 31, 2011. The Company contributed \$0.2 million for each of the years ended December 31, 2011, 2010 and 2009.

18. Dividends and Distributions Payable

On November 29, 2011, the Board of Trustees declared a cash dividend for the quarter ended December 31, 2011, of \$0.18 per Common Share, which was paid on February 1, 2012 to holders of record as of December 31, 2011.

19. Federal Income Taxes

The Company has elected to qualify as a REIT in accordance with Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Code"), and intends at all times to qualify as a REIT under the Code. To qualify as a REIT, the Company must meet a number of organizational and operational requirements, including a requirement that it currently distribute at least 90% of its annual REIT taxable income to its shareholders. As a REIT, the Company generally will not be subject to corporate Federal income tax, provided that distributions to its shareholders equal at least the amount of its REIT taxable income as defined under the Code. As the Company distributed sufficient taxable income for the years ended December 31, 2011, 2010 and 2009, no U.S. Federal income or excise taxes were incurred. If the Company fails to qualify as a REIT in any taxable year, it will be subject to Federal income taxes at the regular corporate rates (including any applicable alternative minimum tax) and may not be able to qualify as a REIT for the four subsequent taxable years. Even though the Company qualifies for taxation as a REIT, the Company is subject to certain state and local taxes on its income and property and Federal income and excise taxes on any undistributed taxable income. In addition, taxable income from non-REIT activities managed through the Company's Taxable REIT Subsidiary ("TRS") is subject to Federal, state and local income taxes.

Characterization of Distributions:

The Company has determined that the cash distributed to the shareholders is characterized as follows for Federal income tax purposes:

	For the years ended December 31,		
	2011	2010	2009

20. Earnings Per Common Share

Basic earnings per Common Share is computed using net income attributable to common shareholders and the weighted average Common Shares outstanding. Diluted earnings per Common Share reflect the conversion of obligations and the assumed exercises of securities including the effects of awards issuable under the Company's Share Incentive Plans. In accordance with GAAP, all Common Shares used to calculate earnings per Common Share have been adjusted to reflect a special dividend paid on January 30, 2009, which resulted in the issuance of approximately 1.3 million additional Common Shares. The following table sets forth the computation of basic and diluted earnings per share from continuing operations for the periods indicated:

(dollars in thousands, except per share amounts)	Years ended December 31,		
	2011	2010	2009
Numerator:			
Income from continuing operations attributable to Common Shareholders	\$ 20,062	\$ 28,260	\$ 26,574
Effect of dilutive securities:			
Preferred OP Unit distributions	18	18	19
Numerator for diluted earnings per Common Share	<u>20,080</u>	<u>28,278</u>	<u>26,593</u>
Denominator:			
Weighted average shares for basic earnings per share	40,697	40,136	38,005
Effect of dilutive securities:			
Employee share options	264	245	212
Convertible Preferred OP Units	25	25	25
Dilutive potential Common Shares	289	270	237
Denominator for diluted earnings per share	<u>40,986</u>	<u>40,406</u>	<u>38,242</u>
Basic earnings per Common Share from continuing operations attributable to Common Shareholders	<u>\$ 0.50</u>	<u>\$ 0.70</u>	<u>\$ 0.70</u>
Diluted earnings per Common Share from continuing operations attributable to Common Shareholders	<u>\$ 0.49</u>	<u>\$ 0.70</u>	<u>\$ 0.70</u>

The weighted average shares used in the computation of dilutive earnings per share include unvested restricted Common Shares ("Restricted Shares") and restricted OP Units ("LTIP Units") (Note 15) that are entitled to receive dividend equivalent payments. The effect of the conversion of Common OP Units is not reflected in the above table, as they are exchangeable for Common Shares on a one-for-one basis. The income allocable to such units is allocated on this same basis and reflected as noncontrolling interest in subsidiaries in the accompanying consolidated financial statements. As such, the assumed conversion of these units would have no net impact on the determination of diluted earnings per share. The conversion of the convertible notes payable (Note 9) is not reflected in the table above as such conversion, based on the market price of the Common Shares, would be settled with cash.

20. Earnings Per Common Share (continued)

The effect of the assumed conversion of 188 Series A Preferred OP Units into 25,067 Common Shares would be dilutive for the years ended December 31, 2011, 2010 and 2009 and are accordingly included in the table above.

22. Commitments and Contingencies

Under various Federal, state and local laws, ordinances and regulations relating to the protection of the environment, a current or previous owner or operator of real estate may be liable for the cost of removal or remediation of certain hazardous or toxic substances disposed, stored, generated, released, manufactured or discharged from, on, at, under, or in a property. As such, the Company may be potentially liable for costs associated with any potential environmental remediation at any of its formerly or currently owned properties.

The Company conducts Phase I environmental reviews with respect to properties it acquires. These reviews include an investigation for the presence of asbestos, underground storage tanks and polychlorinated biphenyls (PCBs). Although such reviews are intended to evaluate the environmental condition of the subject property as well as surrounding properties, there can be no assurance that the review conducted by the Company will be adequate to identify environmental or other problems that may exist. Where a Phase II assessment is so recommended, a Phase II assessment is conducted to further determine the extent of possible environmental contamination. In all instances where a Phase I or II assessment has resulted in specific recommendations for remedial actions, the Company has either taken or scheduled the recommended remedial action. To mitigate unknown risks, the Company has obtained environmental insurance for most of its properties, which covers only unknown environmental risks.

The Company believes that it is in compliance in all material respects with all Federal, state and local ordinances and regulations regarding hazardous or toxic substances. Management is not aware of any environmental liability that it believes would have a material adverse impact on the Company's financial position or results of operations. Management is unaware of any instances in which the Company would incur significant environmental costs if any or all properties were sold, disposed of or abandoned. However, there can be no assurance that any such non-compliance, liability, claim or expenditure will not arise in the future.

ACADIA REALTY TRUST AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

22. Commitments and Contingencies (continued)

The Company is involved in various matters of litigation arising in the normal course of business. While the Company is unable to predict with certainty the amounts involved, the Company's management and counsel are of the opinion that, when such litigation is resolved, the Company's resulting liability, if any, will not have a significant effect on the Company's consolidated financial position, results of operations, or liquidity. The Company's policy is to accrue legal expenses as they are incurred.

In September 2008, the Company, certain of its subsidiaries, and other unrelated entities (the "Investor Consortium") were named as defendants in an adversary proceeding brought by Mervyn's LLC ("Mervyns") in the United States Bankruptcy Court for the District of Delaware. The action involves five claims alleging fraudulent transfers in which Mervyns is nominally seeking approximately \$1.175 billion in damages from the Investor Consortium, although the actual claims made by the administrator and the unsecured creditors are substantially less. The first claim contends that, at the time of the sale of Mervyns by Target Corporation to the Investor Consortium, a transfer of assets was made in an effort to defraud creditors. The Company believes that this aspect of the case is without merit. The remaining four claims relate to transfers of assets of Mervyns at various times after the sale by Target. The Company believes that there are substantial defenses to these claims and intends to continue to defend them vigorously. This matter is in the early stages of discovery. The parties to this action have agreed to a non-binding mediation, which is scheduled for the end of March, 2012.

Because of the inherently unpredictable nature of litigation, the Company could incur some amount of liability in connection with this matter. However, at the present time, there have not been sufficient developments in this matter for us to estimate the reasonably possible loss or range of loss that the Company might incur as a result of this matter.

During August 2009, the Company terminated the employment of a former Senior Vice President (the "Former Employee") for engaging in conduct that fell within the definition of "cause" in his severance agreement with the Company. Had the Former Employee not been terminated for "cause," he would have been eligible to receive approximately \$0.9 million under the severance agreement. Because the Company terminated him for "cause," it did not pay the Former Employee any severance benefits under the agreement. The Former Employee has brought a lawsuit against the Company in New York State Supreme Court, alleging breach of the severance agreement. The suit is in the pre-trial discovery stage. The Company believes it has meritorious defenses to the suit.

The Company has arranged for the provision of one letter of credit in connection with a certain lease and investment. As of December 31, 2011, there were no outstanding balances under the letter of credit. If the letter of credit was fully drawn, the combined maximum amount of exposure would be \$4.6 million.

23. Subsequent Events

During January 2012, the Company established an at-the-market ("ATM") equity program with an aggregate offering price of up to \$75.0 million in Common Shares. The Company intends to use the future net proceeds of this offering for general corporate purposes, which may include, among other things, repayment of its debt, future acquisitions, (directly in the Core Portfolio and through its Opportunity Funds), and redevelopments of and capital improvements to its properties.

During January 2012, the Company acquired 1520 North Milwaukee Ave, a 3,100 square foot property located in Chicago, IL for approximately \$3.8 million.

During February 2012, Fund III, in a venture with an unaffiliated partner, acquired 640 Broadway, a 45,700 square foot property located in New York, NY for approximately \$32.5 million.

During February 2012, the Company acquired a 40,000 square foot single tenant property, located in Cambridge, MA, for approximately \$19.2 million, which included the assumption of \$7.0 million of in-place mortgage debt.

During February 2012, Kenneth Bernstein, President and CEO, converted 150,000 Common OP Units into Common Shares and subsequently sold 75,000 Common Shares.

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER PURSUANT TO RULE 13a - 14(a) (SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002)

I, Kenneth F. Bernstein, certify that:

1. I have reviewed this annual report on Form 10-K of Acadia Realty Trust;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
